

THE RBB FUND, INC.
EMERALD BANKING & FINANCE EVOLUTION FUND
EMERALD GROWTH FUND

Supplement dated July 10, 2026
to the Prospectus dated July 18, 2025, as supplemented

This supplement serves as notification of the following changes, effective immediately:

1. NEW WEBSITE

Information regarding the Emerald Growth Fund, including the Prospectus, SAI, reports to shareholders, and other information, is available at www.teamemerald funds.com. Accordingly, all references to the website for the Emerald Growth Fund should be updated accordingly.

2. CHANGE IN CLASS A SALES LOAD MINIMUM for EMERALD GROWTH FUND

The minimum investment amount eligible to receive a discount to purchase Class A Shares of the Emerald Growth Fund has been reduced from \$100,000 to \$50,000. Accordingly, the paragraph in the Prospectus entitled “Summary Section – Emerald Growth Fund – Fees and Expenses of the Fund” is amended and restated in its entirety as shown below:

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial intermediary, in the section “SHAREHOLDER INFORMATION” starting from page 23 of the Prospectus and the section “PURCHASE AND REDEMPTION INFORMATION” starting from page 38 of the Fund’s statement of additional information (the “SAI”). In addition, please see Appendix A - Intermediary Sales Charge Waivers and Discounts.

3. CHANGES IN APPENDIX A - INTERMEDIARY SALES CHARGE WAIVERS AND DISCOUNTS

The “Appendix A – Intermediary Sales Charge Waivers and Discounts” section in the Prospectus is hereby updated by adding the following:

RAYMOND JAMES

Raymond James & Associates, Inc., Raymond James Financial Services, Inc. and each entity’s affiliates (“Raymond James”)

Effective March 1, 2019, shareholders purchasing Fund shares through a Raymond James platform or account, or through an introducing broker-dealer or independent registered investment adviser for which Raymond James provides trade execution, clearance, and/or custody services, will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund’s Prospectus or SAI.

Front-end sales load waivers on Class A Shares available at Raymond James

- Shares purchased in an investment advisory program.
- Shares purchased within the same fund family through a systematic reinvestment of capital gains and dividend distributions.
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).
- A shareholder in the Fund's Class C Shares will have their shares converted at net asset value to Class A Shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of Raymond James.

CDSC Waivers on Classes A, B, and C Shares available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations as described in the Fund's Prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-end load discounts available at Raymond James: breakpoints, rights of accumulation, and/or letters of intent

- Breakpoints as described in this Prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Raymond James. Eligible fund family assets not held at Raymond James may be included in the calculation of rights of accumulation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

SUMMARY SECTION – EMERALD BANKING & FINANCE EVOLUTION FUND

Investment Objective

Emerald Banking & Finance Evolution Fund (the “Fund”) seeks long-term growth through capital appreciation. Income is a secondary objective.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below. You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial intermediary, in the section “SHAREHOLDER INFORMATION” starting from page 23 of the Prospectus and the section “PURCHASE AND REDEMPTION INFORMATION” starting from page 48 of the Fund’s statement of additional information (the “SAI”). In addition, please see Appendix A - Intermediary Sales Charge Waivers and Discounts.

	Class A	Class C	Institutional Class	Investor Class
Shareholder Fees (fees paid directly from your investment)				
Maximum sales charge (load) on purchases (as a percentage of offering price)	4.75%	None	None	None
Maximum deferred sales charge (as a percentage of the lower of original purchase price or redemption proceeds)	None	1.00%	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)				
Management Fees	0.90%	0.90%	0.90%	0.90%
Distribution and Service (12b-1) Fees	0.35%	0.75%	None	0.25%
Total Other Expenses	0.38%	0.63%	0.43%	0.53%
Other Fund Expenses ⁽¹⁾	0.38%	0.38%	0.38%	0.38%
Shareholder Services Fees	None	0.25%	0.05%	0.15%
Total Annual Fund Operating Expenses	1.63%	2.28%	1.33%	1.68%

⁽¹⁾ As of the date of this Prospectus, the Fund has not commenced investment operations. Accordingly, “Other Fund Expenses” are estimated for the current fiscal year.

Example

The Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. **Although your actual costs may be higher or lower, based on these assumptions your costs would be:**

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
Class A Shares	\$633	\$965	\$1,319	\$2,316
Class C Shares	\$331	\$712	\$1,220	\$2,615
Institutional Class Shares	\$135	\$421	\$729	\$1,601
Investor Class Shares	\$171	\$530	\$913	\$1,987

You would pay the following expenses on Class C Shares if you did not redeem your Shares at the end of the periods:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
Class C Shares	\$231	\$712	\$1,220	\$2,615

The Example does not reflect sales charges (loads) on dividends reinvested and other distributions. If these sales charges (loads) were included, your costs would be higher.

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs. These costs, which are not reflected in annual fund operating expenses or in the Examples, affect the Fund’s performance. A higher portfolio turnover rate may also result in higher taxes when Fund shares are held in a taxable account. No portfolio turnover rate is provided for the Fund because the Fund had not commenced operations prior to the date of this Prospectus.

Principal Investment Strategies

The Emerald Banking & Finance Evolution Fund has adopted an investment policy that it will, under normal conditions, invest at least 80% of the value of its assets (net assets plus the amount of any borrowings for investment purposes) in stocks (both common and preferred) of companies principally engaged in banking or financial services, and collective investment vehicles such as mutual funds and exchange-traded funds that invest in companies that are principally engaged in banking or financial services as denoted by being classified as within the Banks, Financial Services, Insurance or within the Transaction Processing Services SubSector (as determined by the Russell Industry Classification Benchmark). The Emerald Banking & Finance Evolution Fund’s policy to invest at least 80% of its assets in such a manner is non-fundamental, which means that it may be changed without shareholder approval. Shareholders will receive 60 days’ prior written notice of any change to this policy.

The Fund may invest in companies of various sizes but will primarily focus on mid and small-size companies, at the time of purchase. The Adviser typically defines small- and mid-size companies as those having a market capitalization equal to or less than that of the largest companies in the Russell 2500 Index. As of June 30, 2025, the Russell 2500 Index included securities issued by companies that ranged in size between \$2 million and \$24.25 billion. Micro-cap stocks are not a principal investment strategy of the Fund.

While the non-fundamental policy described above allows for the Fund to invest in companies that are principally engaged in either banking or financial services, the Fund has adopted a fundamental policy that it will invest not less than 25% of its net assets in securities of companies principally engaged in the banking or financial services industries. For purposes of this fundamental policy, a company is defined as being in the banking or financial services industries if such company is classified as within the Banks, Financial Services, Insurance or within the Transaction Processing Services Sub-Sector (as determined by the Russell Industry Classification Benchmark).

The Fund generally expects to invest not less than 25% in the banking industry and not less than 15% in the financial services industry. The Fund may invest up to 20% in companies outside the banking and financial services industries.

The Fund may invest up to 15% of the value of its net assets in illiquid securities. The illiquid securities the Fund expects to invest in include common stocks or preferred stocks that cannot be disposed of within seven days in the ordinary course of business.

Companies in the banking industry are defined to include U.S. and foreign commercial and industrial banking and savings institutions and their parent holding companies. Companies in the financial services industry are defined to include commercial and industrial finance companies, diversified financial services companies, investment banking, securities brokerage and investment advisory companies, mortgage real estate investment trusts, insurance and insurance holding companies and leasing companies.

The Fund intends to invest a portion of its assets in the securities of other exchange-traded funds (“ETFs”), including affiliated ETFs advised or sub-advised by the Adviser (as defined below) (each, an “Underlying ETF”). The Fund may invest in real estate investment trusts (“REITs”). There are no limitations with respect to the type of REITs in which the Fund may invest.

Emerald Mutual Fund Advisers Trust (“Emerald” or the “Adviser”) applies the theme of evolution to these investment guidelines by pursuing companies that the Adviser believes are reinventing/redesigning existing products/services thereby generating value for their customers, creating a competitive advantage and driving business growth.

The Adviser utilizes a growth approach to choosing securities based upon fundamental research which attempts to identify companies whose earnings growth rate exceeds that of their peer group, exhibit a competitive advantage in niche markets, or do not receive significant coverage from other institutional investors.

The Fund generally sells investments when the Adviser concludes that better investment opportunities exist in other securities, the security is fully valued, or the issuer’s circumstances or the political or economic outlook have changed.

Principal Investment Risks

Risk is inherent in all investing. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. Different risks may be more significant at different times depending on market conditions or other factors:

Active Management Risk: The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantee that these strategies and processes will be successful or that the Fund will achieve its investment objective.

Affiliated ETF Risk: Affiliated ETF risk is the risk that the Adviser may select Underlying ETF investments for the Fund based on its own financial interests rather than the Fund's interests. The Adviser may be subject to potential conflicts of interest in selecting the Underlying ETFs because the fees paid to the Adviser by some Underlying ETFs may be higher than other ETFs, or the Underlying ETFs may be in need of assets to enhance their appeal to other investors, liquidity, and trading and/or to enable them to carry out their investment strategies. However, the Adviser is a fiduciary to the Fund and is legally obligated to act in the Fund's best interest when selecting Underlying ETFs.

Concentration Risk: The Fund may be susceptible to an increased risk of loss, including losses due to adverse events that affect the Fund's investments more than the market as a whole, to the extent that the Fund's investments are concentrated in a particular issue, issuer or issuers, country, market segment, industries, project types, or asset class.

Cyber Security Risk: Cyber security risk is the risk of an unauthorized breach and access to Fund assets, Fund or customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund, Adviser, custodian, transfer agent, distributor and other service providers and financial intermediaries to suffer data breaches, data corruption or lose operational functionality or prevent Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The Fund and Adviser have limited ability to prevent or mitigate cyber security incidents affecting third-party service providers, and such third-party service providers may have limited indemnification obligations to the Fund or Adviser. Successful cyber-attacks or other cyber-failures or events affecting the Fund or its service providers may adversely impact and cause financial losses to the Fund or its shareholders. Issuers of securities in which the Fund invests are also subject to cyber security risks, and the value of these securities could decline if the issuers experience cyber-attacks or other cyber-failures.

Equity Securities Risk: The Fund is designed for investors who can accept the risks of investing in a portfolio with significant holdings of equity securities. Equity securities tend to be more volatile than other investment choices, such as debt and money market instruments. The value of your investment may decrease in response to overall stock market movements or the value of individual securities held by the Fund.

Foreign Market and Trading Risk: The trading markets for many foreign securities are not as active as U.S. markets and may have less governmental regulation and oversight. Foreign markets also may have clearance and settlement procedures that make it difficult for the Fund to buy and sell securities. These factors could result in a loss to the Fund by causing the Fund to be unable to dispose of an investment or to miss an attractive investment opportunity, or by causing Fund assets to be uninvested for some period of time. In addition, where all or portion of the Fund's underlying securities trade in a foreign market that is closed when the market in which the Fund's Shares are listed is open for trading, there may be changes between the last quote of the underlying securities' value in the closed foreign market and the value of such underlying securities during the Fund's domestic trading day.

Growth Stocks Risk: Growth stocks are typically priced higher than other stocks, in relation to earnings and other measures, because investors believe they have more growth potential. This potential may or may not be realized and, if it is not realized, may result in a loss to the Fund. Growth stock prices also tend to be more volatile than the overall market. Because different types of stocks go out of favor with investors depending on market and economic conditions, the Fund's return may be adversely affected during a market downturn and when growth stocks are out of favor.

Investment Companies and ETFs Risk: The Fund's investment performance may be affected by the investment performance of the underlying funds in which the Fund may invest. Investing in other investment companies, including ETFs, may result in duplication of expenses, including advisory fees, in addition to the Fund's own expenses. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments the investment company or ETF holds. The Fund may incur brokerage fees in connection with its purchase of ETF shares. Certain ETFs may be thinly traded and experience large spreads between the "ask" price quoted by a seller and the "bid" price offered by a buyer. The existence of extreme market volatility or potential lack of an active trading market for an ETF's shares could result in such shares trading at a significant premium or discount to their NAV.

Liquidity Risk: Liquidity risk is the risk, due to certain investments trading in lower volumes or to market and economic conditions that the Fund may be unable to find a buyer for its investments when it seeks to sell them or to receive the price it expects based on the Fund's valuation of the investments. Events that may lead to increased redemptions, such as market disruptions, may also negatively impact the liquidity of the Fund's investments when it needs to dispose of them. If the Fund is forced to sell its investments at an unfavorable time and/or under adverse conditions in order to meet redemption requests, such sales could negatively affect the Fund. Liquidity issues may also make it difficult to value the Fund's investments.

Market Risk: Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. The value of the Fund's investments may be negatively affected by adverse changes in overall economic or market conditions, such as the level of economic activity and productivity, unemployment and labor force participation rates, inflation or deflation (and expectations for inflation or deflation), interest rates, demand and supply for particular products or resources including labor, and debt levels and credit ratings, among other factors. Such adverse conditions may contribute to an overall economic contraction across entire economies or markets, which may negatively impact the profitability of issuers operating in those economies or markets. The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. The Fund's NAV may fluctuate significantly in response to these and other factors including economic, political, or financial events, public health crises (such as epidemics or pandemics), or other disruptive events (whether real, expected or perceived) in the U.S. and global markets. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. As a result, an investor could lose money over short or long periods of time.

REIT Risk: REITs may be affected by economic forces and other factors related to the real estate industry. These risks include possible declines in the value of real estate, possible lack of availability of mortgage funds and unexpected vacancies of properties. REITs are also subject to heavy cash flow dependency, defaults by borrowers, self liquidation, interest rate risks (especially mortgage REITS) and liquidity risks. REITs that invest in real estate mortgages are also subject to prepayment risk. Investing in REITs may involve risks similar to those associated with investing in small capitalization companies. REITs may have limited financial resources, may trade less frequently and in a limited volume, engage in dilutive offerings, and may be subject to more abrupt or erratic price movements than larger company securities. Historically, small capitalization stocks, such as REITs, have been more volatile in price than the larger capitalization stocks included in the S&P 500® Index. In addition, REITs could possibly fail to (i) qualify for favorable tax treatment under applicable tax law, or (ii) maintain their exemptions from registration under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund will indirectly bear its proportionate share of any expenses, including management fees, paid by an externally managed REIT in which it invests.

Sector Risk: To the extent the Fund invests more heavily in particular sectors, its performance will be especially sensitive to developments that significantly affect those sectors. Individual sectors may be more volatile, and may perform differently, than the broader market. The industries that constitute a sector may all react in the same way to economic, political or regulatory events.

- o *Banking Sector Risk.* The banking sector can be adversely affected by legislation, regulation, competition, declines in economic conditions, corporate and consumer debt defaults, changing interest rates, and instability in the financial markets in general. Credit losses resulting from financial difficulties of borrowers can have a significant negative impact. Changes in legislation in past years may have tended to increase competition in the industry. The stability and profitability of this sector depends significantly upon the availability and cost of capital funds.
- o *Financial Sector Risk.* The Fund may be susceptible to adverse economic or regulatory occurrences affecting the financial sector. Financial services companies are subject to extensive government regulation and, as a result, their profitability may be affected by new regulations or regulatory interpretations. Changes in interest rates can have a disproportionate effect on the financial sector and financial services companies whose securities the Fund may purchase may themselves have concentrated portfolios, which makes them vulnerable to economic conditions that affect that sector. Financial services companies have also been affected by increased competition, which could adversely affect the profitability or viability of such companies.

Small and Medium Capitalization Issuers Risk: Investing in equity securities of small and medium capitalization companies often involves greater risk than is customarily associated with investments in larger capitalization companies. This increased risk may be due to the greater business risks of smaller size, limited markets and financial resources, narrow product lines and frequent lack of depth of management. The securities of smaller companies are often traded in the over-the-counter market and even if listed on a national securities exchange may not be traded in volumes typical for that exchange. Consequently, the securities of smaller companies are less likely to be liquid, may have limited market stability, and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or the market averages in general.

Performance Information

Performance information for the Fund is not included because the Fund had not commenced operations prior to the date of this Prospectus. Performance information will be available in the Prospectus once the Fund has at least one calendar year of performance. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future and does not guarantee future results. Updated performance information, current through the most recent month end is available by calling 1-855-828-9909.

Investment Adviser

Emerald Mutual Fund Advisers Trust is the investment adviser to the Fund.

Portfolio Managers

Kenneth G. Mertz II, CFA, and Steven E. Russell, Esq. are jointly and primarily responsible for the day-to-day management of the Fund's portfolio and make the final investment decisions for the Fund. Mr. Mertz is President and Chief Investment Officer of Emerald and Emerald Advisers, LLC. Mr. Russell is a portfolio manager of the Fund. Mr. Mertz and Mr. Russell have both managed the Fund from its inception.

Purchase And Sale of Fund Shares

The minimum initial investment in Class A, Class C, and Investor Class Shares is \$2,000 for non-qualified accounts and \$1,000 for qualified accounts. The minimum initial investment in Institutional Class Shares is \$1,000,000. The minimum subsequent investment is \$100 for Class A, Class C, and Investor Class Shares. There is no minimum subsequent investment for Institutional Class Shares. Investors may meet the minimum investment amount by aggregating multiple accounts within the Fund.

Purchases, exchanges, and redemptions may be made directly or through institutional channels, such as financial intermediaries and retirement platforms. You should contact your financial intermediary or refer to your plan documents for information on how to invest in the Fund. Investor Class shareholders should call 1-855-828-9909 for more information on how to invest.

Tax Information

For U.S. federal income tax purposes, the Fund's distributions may be taxed as ordinary income, capital gains, qualified dividend income or Section 199A dividends, except when your investment is in an IRA, 401(k) or other tax-qualified investment plan. Withdrawals from a tax-qualified investment plan are subject to special tax rules.

Payments To Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

SUMMARY SECTION – EMERALD GROWTH FUND

Investment Objective

Emerald Growth Fund (the “Fund”) seeks long-term growth through capital appreciation.

Fees And Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below. You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$100,000 in the Fund. More information about these and other discounts is available from your financial intermediary, in the section “SHAREHOLDER INFORMATION” starting from page 23 of the Prospectus and the section “PURCHASE AND REDEMPTION INFORMATION” starting from page 48 of the Fund’s statement of additional information (the “SAI”). In addition, please see Appendix A - Intermediary Sales Charge Waivers and Discounts.

	Class A	Class C	Institutional Class	Investor Class
Shareholder Fees (fees paid directly from your investment)				
Maximum sales charge (load) on purchases (as a percentage of offering price)	4.75%	None	None	None
Maximum deferred sales charge (as a percentage of the lower of original purchase price or redemption proceeds)	None	1.00%	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)				
Management Fees	0.58%	0.58%	0.58%	0.58%
Distribution and Service (12b-1) Fees	0.35%	0.75%	None	0.25%
Total Other Expenses	0.06%	0.31%	0.11%	0.21%
Other Fund Expenses ⁽¹⁾	0.06%	0.06%	0.06%	0.06%
Shareholder Services Fees	None	0.25%	0.05%	0.15%
Acquired Fund Fees and Expenses	0.02%	0.02%	0.02%	0.02%
Total Annual Fund Operating Expenses	1.01%	1.66%	0.71%	1.06%
Fee Waiver and Expense Reimbursement ⁽²⁾	(0.02)%	(0.02)%	(0.02)%	(0.02)%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement	0.99%	1.64%	0.69%	1.04%

⁽¹⁾ The Fund commenced investment operations on June 8, 2026. Substantially all of the assets of the Emerald Growth Fund, as a series of Financial Investors Trust (for this section only, the “Predecessor Fund”), were transferred to the Fund in a tax-free reorganization (the “Reorganization”) as of the close of business on June 5, 2026. Accordingly, “Other Fund Expenses” have been restated to reflect expenses estimated to be incurred for the Fund for the current fiscal year. Unless otherwise indicated, references to the “Fund” in this section refer to the Predecessor Fund and Fund.

⁽²⁾ Pursuant to a written agreement (the “AFFE Agreement”), Emerald Mutual Fund Advisers Trust (“Emerald” or the “Adviser”) has agreed to waive and/or reimburse the Fund’s Class A, Class C, Institutional Class, and Investor Class Shares for any acquired fund fees and expenses incurred by the Fund in connection with the Fund’s investment in any exchange-traded funds advised or sub-advised by the Adviser. The amount of such waived fees shall not be subject to recapture by the Adviser. The AFFE Agreement has no termination date. Prior to December 31, 2027, and thereafter, this waiver may not be modified or discontinued without the approval of the Fund’s board of directors.

Example

The Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
Class A Shares	\$571	\$779	\$1,005	\$1,651
Class C Shares	\$267	\$521	\$900	\$1,964
Institutional Class Shares	\$70	\$225	\$393	\$881
Investor Class Shares	\$106	\$335	\$583	\$1,292

You would pay the following expenses on Class C Shares if you did not redeem your Shares at the end of periods:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
Class C Shares	\$167	\$521	\$900	\$1,964

The Example does not reflect sales charges (loads) on dividends reinvested and other distributions. If these sales charges (loads) were included, your costs would be higher.

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. A higher portfolio turnover rate may also result in higher taxes when Fund shares are held in a taxable account. During the fiscal year ended April 30, 2025, the Predecessor Fund's portfolio turnover was 45% of the average value of its portfolio.

Principal Investment Strategies

The Emerald Growth Fund has adopted an investment policy that it will, under normal conditions, invest at least 80% of the value of its assets (net assets plus the amount of any borrowings for investment purposes) in equity securities of U.S. and foreign companies, principally common stocks and preferred stocks, identified by the Adviser as having growth characteristics. In identifying investments with growth characteristics, the Adviser utilizes a fundamental approach to choosing securities: the research staff of Emerald conducts company-specific research analysis, taking into account a company's revenue and earnings growth rates and the financial, operating, and market characteristics that distinguish a company from other companies. The Fund's policy to invest at least 80% of its assets in such a manner is non-fundamental, which means that it may be changed without shareholder approval. Shareholders will receive 60 days' prior written notice of any change to this policy.

The Fund can invest in companies from a wide range of industries and of market capitalizations. The Fund may emphasize investments in smaller companies, which are defined by the Adviser as those having a market capitalization equal to or less than that of the largest companies in the Russell 2000 Index. As of June 30, 2025, the Russell 2000 Index included securities issued by companies that ranged in size between \$2 million and \$15.85 billion.

The Fund may also invest in the other investment companies, principally money market funds, exchange-traded funds ("ETFs"), unit investment trusts, closed-end funds, and business development companies. The Fund intends to invest a portion of these assets in the securities of affiliated ETFs advised or sub-advised by the Adviser (each, an "Underlying ETF"). The Fund does not have a policy with respect to investing a certain portion of its assets in any particular sector, but may emphasize investments in the healthcare, technology, and industrial sectors.

While the Fund may directly invest in the securities of companies within the healthcare sector, the Adviser intends for the Fund to gain exposure to the healthcare sector in part through the use of such Underlying ETFs, primarily the F/m Emerald Life Sciences Innovation ETF (the "Life Sciences ETF"). The Fund does not have a policy with respect to the amount of the Fund's portfolio that will be allocated to the Life Sciences ETF, but generally the Adviser expects approximately 5% of the Fund's portfolio to be allocated to the Life Sciences ETF, calculated at the time of investment.

The Fund may invest in foreign companies directly and through American Depositary Receipts ("ADRs").

The Fund generally sells investments when the Adviser concludes that better investment opportunities exist in other securities, the security is fully valued, or the issuer's circumstances or the political or economic outlook have changed.

Principal Investment Risks

Risk is inherent in all investing. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly from day to day and over time. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. Different risks may be more significant at different times depending on market conditions or other factors:

Active Management Risk: The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantee that these strategies and processes will be successful or that the Fund will achieve its investment objective.

Affiliated ETF Risk: Affiliated ETF risk is the risk that the Adviser may select Underlying ETF investments for the Fund based on its own financial interests rather than the Fund's interests. The Adviser may be subject to potential conflicts of interest in selecting the Underlying ETFs because the fees paid to the Adviser by some Underlying ETFs may be higher than other ETFs, or the Underlying ETFs may be in need of assets to enhance their appeal to other investors, liquidity, and trading and/or to enable them to carry out their investment strategies. However, the Adviser is a fiduciary to the Fund and is legally obligated to act in the Fund's best interest when selecting Underlying ETFs.

Cyber Security Risk: Cyber security risk is the risk of an unauthorized breach and access to Fund assets, Fund or customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund, Adviser, custodian, transfer agent, distributor and other service providers and financial intermediaries to suffer data breaches, data corruption or lose operational functionality or prevent Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The Fund and Adviser have limited ability to prevent or mitigate cyber security incidents affecting third-party service providers, and such third-party service providers may have limited indemnification obligations to the Fund or Adviser. Successful cyber-attacks or other cyber-failures or events affecting the Fund or its service providers may adversely impact and cause financial losses to the Fund or its shareholders. Issuers of securities in which the Fund invests are also subject to cyber security risks, and the value of these securities could decline if the issuers experience cyber-attacks or other cyber-failures.

Equity Securities Risk: The Fund is designed for investors who can accept the risks of investing in a portfolio with significant holdings of equity securities. Equity securities tend to be more volatile than other investment choices, such as debt and money market instruments. The value of your investment may decrease in response to overall stock market movements or the value of individual securities held by the Fund.

Foreign Market and Trading Risk: The trading markets for many foreign securities are not as active as U.S. markets and may have less governmental regulation and oversight. Foreign markets also may have clearance and settlement procedures that make it difficult for the Fund to buy and sell securities. These factors could result in a loss to the Fund by causing the Fund to be unable to dispose of an investment or to miss an attractive investment opportunity, or by causing Fund assets to be uninvested for some period of time. In addition, where all or portion of the Fund's underlying securities trade in a foreign market that is closed when the market in which the Fund's Shares are listed is open for trading, there may be changes between the last quote of the underlying securities' value in the closed foreign market and the value of such underlying securities during the Fund's domestic trading day.

Growth Stocks Risk: Growth stocks are typically priced higher than other stocks, in relation to earnings and other measures, because investors believe they have more growth potential. This potential may or may not be realized and, if it is not realized, may result in a loss to the Fund. Growth stock prices also tend to be more volatile than the overall market. Because different types of stocks go out of favor with investors depending on market and economic conditions, the Fund's return may be adversely affected during a market downturn and when growth stocks are out of favor.

Investment Companies and ETFs Risk: The Fund's investment performance may be affected by the investment performance of the underlying funds in which the Fund may invest. Investing in other investment companies, including ETFs, may result in duplication of expenses, including advisory fees, in addition to the Fund's own expenses. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments the investment company or ETF holds. The Fund may incur brokerage fees in connection with its purchase of ETF shares. Certain ETFs may be thinly traded and experience large spreads between the "ask" price quoted by a seller and the "bid" price offered by a buyer. The existence of extreme market volatility or potential lack of an active trading market for an ETF's shares could result in such shares trading at a significant premium or discount to their NAV.

Large-Cap Companies Risk: The stocks of large capitalization companies as a group could fall out of favor with the market, causing the Fund to underperform investments that focus solely on small- or medium- capitalization stocks.

Liquidity Risk: Liquidity risk is the risk, due to certain investments trading in lower volumes or to market and economic conditions that the Fund may be unable to find a buyer for its investments when it seeks to sell them or to receive the price it expects based on the Fund's valuation of the investments. Events that may lead to increased redemptions, such as market disruptions, may also negatively impact the liquidity of the Fund's investments when it needs to dispose of them. If the Fund is forced to sell its investments at an unfavorable time and/or under adverse conditions in order to meet redemption requests, such sales could negatively affect the Fund. Liquidity issues may also make it difficult to value the Fund's investments..

Market Risk: Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. The value of the Fund's investments may be negatively affected by adverse changes in overall economic or market conditions, such as the level of economic activity and productivity, unemployment and labor force participation rates, inflation or deflation (and expectations for inflation or deflation), interest rates, demand and supply for particular products or resources including labor, and debt levels and credit ratings, among other factors. Such adverse conditions may contribute to an overall economic contraction across entire economies or markets, which may negatively impact the profitability of issuers operating in those economies or markets. The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. The Fund's NAV may fluctuate significantly in response to these and other factors including economic, political, or financial events, public health crises (such as epidemics or pandemics), or other disruptive events (whether real, expected or perceived) in the U.S. and global markets. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. As a result, an investor could lose money over short or long periods of time.

Sector Risk: To the extent the Fund invests more heavily in particular sectors, its performance will be especially sensitive to developments that significantly affect those sectors. Individual sectors may be more volatile, and may perform differently, than the broader market. The industries that constitute a sector may all react in the same way to economic, political or regulatory events.

- o **Health Care Sector Risk:** Companies in the health care sector are subject to extensive government regulation and their profitability can be significantly affected by restrictions on government reimbursement for medical expenses, rising costs of medical products and services, pricing pressure (including price discounting), limited product lines and an increased emphasis on the delivery of healthcare through outpatient services. Companies in the health care sector are heavily dependent on obtaining and defending patents, which may be time consuming and costly, and the expiration of patents may also adversely affect the profitability of these companies. Health care companies are also subject to extensive litigation based on product liability and similar claims. In addition, their products can become obsolete due to industry innovation, changes in technologies or other market developments. Many new products in the health care sector require significant research and development and may be subject to regulatory approvals, all of which may be time consuming and costly with no guarantee that any product will come to market.
- o **Technology Companies Risk:** Technology companies and companies that rely heavily on technological advances may have limited product lines, markets, financial resources and personnel. These companies may face rapid product obsolescence, as well as unexpected risks and costs related to new product introduction and technological developments, such as artificial intelligence and machine learning. Technology companies may be adversely affected by disruptions to supply chains and distribution networks, as well as issues at third-party partners. They are heavily dependent on patent and other intellectual property rights, and the loss or impairment of these rights may adversely affect their profitability. Technology companies may face increased government scrutiny and may be subject to adverse governmental or legal action. These companies may also be adversely affected by, among other things, actual or perceived security vulnerabilities or other defects in their products and services, which may result in lawsuits, government enforcement actions and other remediation costs.
- o **Industrial Sector Risk:** Companies in the industrial sector may be adversely affected by changes in the supply and demand for products and services, product obsolescence or discontinuance, claims for environmental damage or product liability and changes in general economic conditions, among other factors.

Small and Medium Capitalization Issuers Risk: Investing in equity securities of small and medium capitalization companies often involves greater risk than is customarily associated with investments in larger capitalization companies. This increased risk may be due to the greater business risks of smaller size, limited markets and financial resources, narrow product lines and frequent lack of depth of management. The securities of smaller companies are often traded in the over-the-counter market and even if listed on a national securities exchange may not be traded in volumes typical for that exchange. Consequently, the securities of smaller companies are less likely to be liquid, may have limited market stability, and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or the market averages in general.

Performance Information

The Fund commenced investment operations on June 8, 2026. Substantially all of the assets of Predecessor Fund were transferred to the Fund in the Reorganization, as of the close of business on June 5, 2026. Accordingly, the Fund is the successor to the Predecessor Fund, and the performance information shown is that of the Predecessor Fund. The Fund has an investment objective, strategies and policies substantially the same as the Predecessor Fund.

The bar chart below illustrates the performance of the Predecessor Fund's Class A Shares, which will differ from other Classes of shares to the extent that the other classes do not have the same expenses and inception dates. The bar chart figures do not include any applicable sales charges that an investor may pay when they buy or sell Shares of the Fund. If sales charges were included, the returns would be lower. The information shows you how the Predecessor Fund's performance has varied year by year and provides some indication of the risks of investing in the Fund. The bar chart assumes reinvestment of dividends and distributions.

The performance table below shows how the Predecessor Fund's average annual total returns for 1 year, 5 years and 10 years compare with those of a broad measure of market performance. The Predecessor Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Performance reflects fee waivers in effect. If fee waivers were not in place, the Predecessor Fund's performance would be reduced. Updated performance information, current through the most recent month end is available by calling 1-855-828-9909.

Best Quarter – June 30, 2020

32.13%

Worst Quarter – March 31, 2020

-24.26%

The Predecessor Fund's Class A share year-to-date return as of June 30, 2025 was 5.30%.

Average Annual Total Returns (for the periods ended December 31, 2024)

Emerald Growth	1 Year	5 Years	10 Years
Class A Shares (Inception Date of 10/01/92)**			
Returns Before Taxes	13.45%	7.79%	8.90%

* After-tax returns are calculated by using the highest historical individual U.S. federal marginal income tax rates (i.e., maximum rates) and do not include state or local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. In certain cases, the figure representing "Return after Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period, since a higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor. After-tax returns are not relevant to investors who hold Fund shares in tax-qualified accounts (i.e., retirement plans or individual retirement accounts).

** After-tax returns are only shown for Class A Shares of the Predecessor Fund. After-tax returns for Class C, Institutional Class, and Investor Class Shares will vary from those shown for Class A Shares due to varying expenses among the Classes. The returns do not include any applicable sales charges that an investor may pay to a broker-dealer or other financial intermediary when they buy or sell shares of the Fund.

*** Broad-based securities market index.

**** Additional index.

Investment Adviser

Emerald Mutual Fund Advisers Trust is the investment adviser to the Fund.

Portfolio Managers

The members of the team are: Kenneth G. Mertz II, CFA, President; Stacey L. Sears, Portfolio Manager; and Joseph W. Garner, Portfolio Manager and Director of Research for Emerald and its affiliates. Mr. Mertz, Ms. Sears and Mr. Garner are jointly and primarily responsible for the management of the Fund's portfolio, and each has served as a portfolio manager of the Predecessor Fund since inception in March 2012.

Purchase And Sale of Fund Shares

The minimum initial investment in Class A, Class C, and Investor Class Shares is \$2,000 for non-qualified accounts and \$1,000 for qualified accounts. The minimum initial investment in Institutional Class Shares is \$1,000,000. The minimum subsequent investment is \$100 for Class A, Class C, and Investor Class Shares. There is no minimum subsequent investment for Institutional Class Shares. Investors may meet the minimum investment amount by aggregating multiple accounts within the Fund.

Purchases, exchanges, and redemptions may be made directly or through institutional channels, such as financial intermediaries and retirement platforms. You should contact your financial intermediary or refer to your plan documents for information on how to invest in the Fund. Investor Class shareholders should call 1-855-828-9909 for more information on how to invest.

Tax Information

For U.S. federal income tax purposes, the Fund's distributions may be taxed as ordinary income, capital gains, qualified dividend income or Section 199A dividends, except when your investment is in an IRA, 401(k) or other tax-qualified investment plan. Withdrawals from a tax-qualified investment plan are subject to special tax rules.

Payments To Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.

ADDITIONAL INFORMATION ABOUT THE FUNDS

INVESTMENT OBJECTIVES AND PRINCIPAL STRATEGIES

The following supplements the information contained in the Prospectus concerning the investment objectives of the Funds.

The investment objective of the Emerald Banking & Finance Evolution Fund is to seek long-term growth through capital appreciation. Income is a secondary objective. The investment objective of the Emerald Growth Fund is to seek long-term growth through capital appreciation.

There can be no guarantee that a Fund will achieve its investment objective.

Each Fund's board of directors (the "Board" or "Directors") may change its investment objective without a shareholder vote. Each Fund will notify shareholders at least sixty (60) days prior to any change. If there is a material change to a Fund's investment objective or principal investment strategies, you should consider whether the Fund remains an appropriate investment for you.

The Emerald Banking & Finance Evolution Fund

The Emerald Banking & Finance Evolution Fund has adopted an investment policy that it will, under normal conditions, invest at least 80% of the value of its assets (net assets plus the amount of any borrowings for investment purposes) in stocks (both common and preferred) of companies principally engaged in banking or financial services, and collective investment vehicles such as mutual funds and exchange-traded funds that invest in companies that are principally engaged in banking or financial services as denoted by being classified as within the Banks, Financial Services, Insurance or within the Transaction Processing Services SubSector (as determined by the Russell Industry Classification Benchmark). The Emerald Banking & Finance Evolution Fund's policy to invest at least 80% of its assets in such a manner is non-fundamental, which means that it may be changed without shareholder approval. Shareholders will receive 60 days' prior written notice of any change to this policy.

The Fund may invest in companies of various sizes but will primarily focus on mid and small-size companies, at the time of purchase. The Adviser typically defines small- and mid-size companies as those having a market capitalization equal to or less than that of the largest companies in the Russell 2500 Index. As of June 30, 2025, the Russell 2500 Index included securities issued by companies that ranged in size between \$2 million and \$24.25 billion. Micro-cap stocks are not a principal investment strategy of the Fund.

While the non-fundamental policy described above allows for the Fund to invest in companies that are principally engaged in either banking or financial services, the Fund has adopted a fundamental policy that it will invest not less than 25% of its net assets in securities of companies principally engaged in the banking or financial services industries. For purposes of this fundamental policy, a company is defined as being in the banking or financial services industries, if such company is classified as within the Banks, Financial Services, Insurance or within the Transaction Processing Services SubSector (as determined by the Russell Industry Classification Benchmark).

The Fund generally expects to invest not less than 25% in the banking industry and not less than 15% in the financial services industry. The Fund may invest up to 20% in companies outside the banking and financial services industries.

The Fund may invest up to 15% of the value of its net assets in illiquid securities. The illiquid securities the Fund expects to invest in include common stocks or preferred stocks that cannot be disposed of within seven days in the ordinary course of business.

Companies in the banking industry are defined to include U.S. and foreign commercial and industrial banking and savings institutions and their parent holding companies. Companies in the financial services industry are defined to include commercial and industrial finance companies, diversified financial services companies, investment banking, securities brokerage and investment advisory companies, mortgage real estate investment trusts, insurance and insurance holding companies and leasing companies.

The Fund intends to invest a portion of its assets in the securities of other exchange-traded funds ("ETFs"), including affiliated ETFs advised or sub-advised by the Adviser (as defined below) (each, an "Underlying ETF"). The Fund may invest in real estate investment trusts ("REITs"). There are no limitations with respect to the type of REITs in which the Fund may invest.

Emerald Mutual Fund Advisers Trust ("Emerald" or the "Adviser") applies the theme of evolution to these investment guidelines by pursuing companies that the Adviser believes are reinventing/redesigning existing products/services thereby generating value for their customers, creating a competitive advantage and driving business growth.

The Adviser utilizes a growth approach to choosing securities based upon fundamental research which attempts to identify companies whose earnings growth rate exceeds that of their peer group, exhibit a competitive advantage in niche markets, or do not receive significant coverage from other institutional investors.

The Fund generally sells investments when the Adviser concludes that better investment opportunities exist in other securities, the security is fully valued, or the issuer's circumstances or the political or economic outlook have changed.

The Emerald Growth Fund

The Emerald Growth Fund has adopted an investment policy that it will, under normal conditions, invest at least 80% of the value of its assets (net assets plus the amount of any borrowings for investment purposes) in equity securities of U.S. and foreign companies, principally common stocks and preferred stocks, identified by the Adviser as having growth characteristics. In identifying investments with growth characteristics, the Adviser utilizes a fundamental approach to choosing securities: the research staff of Emerald conducts company-specific research analysis, taking into account a company's revenue and earnings growth rates and the financial, operating, and market characteristics that distinguish a company from other companies. The Fund's policy to invest at least 80% of its assets in such a manner is non-fundamental, which means that it may be changed without shareholder approval. Shareholders will receive 60 days' prior written notice of any change to this policy.

The Fund can invest in companies from a wide range of industries and of market capitalizations. The Fund may emphasize investments in smaller companies, which are defined by the Adviser as those having a market capitalization equal to or less than that of the largest companies in the Russell 2000 Index. As of June 30, 2025, the Russell 2000 Index included securities issued by companies that ranged in size between \$9 million and \$15.9 billion.

The Fund may also invest in the other investment companies, principally money market funds, ETFs, unit investment trusts, closed-end funds, and business development companies. The Fund intends to invest a portion of these assets in the securities of affiliated ETFs advised or sub-advised by the Adviser (each, an "Underlying ETF"). The Fund does not have a policy with respect to investing a certain portion of its assets in any particular sector, but may emphasize investments in the healthcare, technology, and industrial sectors.

While the Fund may directly invest in the securities of companies within the healthcare sector, the Adviser intends for the Fund to gain exposure to the healthcare sector in part through the use of such Underlying ETFs, primarily the F/m Emerald Life Sciences Innovation ETF (the "Life Sciences ETF"). The Fund does not have a policy with respect to the amount of the Fund's portfolio that will be allocated to the Life Sciences ETF, but generally the Adviser expects approximately 5% of the Fund's portfolio to be allocated to the Life Sciences ETF, calculated at the time of investment.

The Fund may invest in foreign companies directly and through American Depositary Receipts ("ADRs").

The Fund generally sells investments when the Adviser concludes that better investment opportunities exist in other securities, the security is fully valued, or the issuer's circumstances or the political or economic outlook have changed.

MORE INFORMATION ABOUT FUND INVESTMENTS

This section provides some additional information about each Fund's investments and certain portfolio management techniques that the Fund may use. More information about the Funds' investments and portfolio management techniques, and related risks, is included in the Statement of Additional Information ("SAI").

The investment objective of the Emerald Banking & Finance Evolution Fund is to seek long-term capital appreciation. Current income is a secondary objective. The investment objective of the Emerald Growth Fund is to seek long-term growth through capital appreciation. Each Fund's investment objective is nonfundamental and may be changed by the Fund's Board without the approval of the Fund's shareholders. However, as a matter of policy, a Fund would not materially change its investment objective without informing shareholders at least 60 days in advance of any such change.

The investments and strategies described in this Prospectus are those that a Fund uses under normal conditions. Each Fund may depart from its principal investment strategy in response to adverse market, economic, political or other conditions by taking temporary defensive positions (up to 100% of its assets) in all types of money market and short-term debt securities. If a Fund were to take a temporary defensive position, it may be unable for a time to achieve its investment objective.

This Prospectus describes each Fund’s principal investment strategies, and the Fund will normally invest in the types of securities described in this Prospectus. In addition to the investments and strategies described in this Prospectus, each Fund also may invest, to a lesser extent, in other securities, use other strategies and engage in other investment practices that are not part of its principal investment strategy. These investments and strategies, as well as those described in this Prospectus, are described in detail in the Fund’s SAI. There is no guarantee that a Fund will achieve its investment objective.

With respect to any percentage restriction on investment or use of assets, if such a percentage restriction is adhered to at the time a transaction is effected, a later increase or decrease in such percentage resulting from changes in values of securities or loans or amounts of net assets or security characteristics generally will not be considered a violation of the restriction. Any such changes in percentages do not require the sale of a security, but rather the Adviser will consider which action is in the best interest of a Fund and its shareholders, including the sale of the security.

MORE INFORMATION ABOUT RISKS

The following provides additional information about the principal and certain non-principal risks of investing in the Funds and, indirectly, in the subsidiaries. More information about each Fund’s risks is included in the SAI.

Principal Risks

	Emerald Banking & Finance Evolution Fund	Emerald Growth Fund
Active Management Risk	✓	✓
Affiliated ETF Risk	✓	✓

Large-Cap Companies Risk		✓
Liquidity Risk	✓	✓
Market Risk	✓	✓
REIT Risk	✓	
Sector Risk	✓	✓
Small and Medium Capitalization Issuers Risk	✓	✓

Active Management Risk

The Fund is actively managed using proprietary investment strategies and processes. There can be no guarantee that these strategies and processes will be successful or that the Fund will achieve its investment objective.

Affiliated ETF Risk

Affiliated ETF risk is the risk that the Adviser may select Underlying ETF investments for the Fund based on its own financial interests rather than the Fund’s interests. The Adviser may be subject to potential conflicts of interest in selecting the Underlying ETFs because the fees paid to the Adviser by some Underlying ETFs may be higher than other ETFs, or the Underlying ETFs may be in need of assets to enhance their appeal to other investors, liquidity, and trading and/or to enable them to carry out their investment strategies. However, the Adviser is a fiduciary to the Fund and is legally obligated to act in the Fund’s best interest when selecting Underlying ETFs.

Concentration Risk

The Fund may be susceptible to an increased risk of loss, including losses due to adverse events that affect the Fund's investments more than the market as a whole, to the extent that the Fund's investments are concentrated in the securities and/or other assets of a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, project types, group of project types, sector, market segment or asset class. The Fund may be more adversely affected by the underperformance of those securities and/or other assets, may experience increased price volatility and may be more susceptible to adverse economic, market, political or regulatory occurrences affecting those securities and/or other assets than a fund that does not concentrate its investments.

Cyber Security Risk

With the increased use of technologies such as the internet to conduct business, the Fund is susceptible to operational, information security and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information (including private shareholder information), corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber security failures or breaches by the Fund's Adviser and other service providers (including, but not limited to, Fund accountant, custodian, transfer agent and administrator), and the issuers of securities in which the Fund invests, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its net asset value ("NAV"), impediments to trading, the inability of Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Adviser and Adviser have established business continuity plans in the event of, and risk management systems to prevent, such cyber-attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by service providers to the Fund and issuers in which the Fund invests, and such third-party service providers may have limited indemnification obligations to the Fund, the Adviser. Each Fund and its shareholders could be negatively impacted as a result. Issuers of securities in which the Fund invests are also subject to cyber security risks, and the value of these securities could decline if the issuers experience cyber-attacks or other cyber-failures.

Equity Securities Risk

The price of equity securities fluctuates based on changes in a company's activities and financial condition and in overall market conditions. Economic, political, and financial conditions, or industry or economic trends or developments, may for varying periods of time cause volatility, illiquidity, or other potentially adverse effects in the markets. The Fund's investments in equity securities expose it to sudden and unpredictable drops in value and the potential for extended periods of lackluster performance.

Foreign Market and Trading Risk

The value of foreign securities may be affected by the imposition of new government regulations, changes in diplomatic relations between the U.S. and another country, political and economic instability, the imposition or tightening of exchange controls, tariffs, increased taxation and confiscation of investor assets. Foreign securities markets may have limited regulatory oversight and greater price volatility, higher trading costs, difficulties in settlement, limits on foreign ownership and less stringent accounting and disclosure requirements. Changes in the exchange rate between the U.S. dollar and a foreign currency may reduce the value of an investment in a security denominated in that foreign currency.

Economies and financial markets throughout the world have become interconnected which increases the possibility that economic, financial or political events in one sector or region could have potentially adverse effects on global economies or markets. Natural or environmental disasters or climate related events, such as earthquakes, fires, floods, hurricanes and tsunamis, and widespread disease, including pandemics and epidemics, have been and can be highly disruptive to economies and the markets.

Recently, various countries have seen significant internal conflicts and in some cases, civil wars may have had an adverse impact on the securities markets of the countries concerned. In addition, the occurrence of new disturbances due to acts of war or terrorism or other political developments cannot be excluded. Nationalization, expropriation or confiscatory taxation, currency blockage, political changes, government regulation, political, regulatory or social instability or uncertainty or diplomatic developments, including the imposition of sanctions or other similar measures, could adversely affect the Fund's investments.

Recent examples of the above include conflict, loss of life and disaster connected to ongoing armed conflict in Europe and in the Middle East. The extent, duration and impact of these conflicts, related sanctions and retaliatory actions are difficult to ascertain, but could be significant and have severe adverse effects on the region, including significant adverse effects on the regional or global economies and the markets for certain securities and commodities. These impacts could negatively affect the Fund's investments in securities and instruments that are economically tied to the applicable region, and include (but are not limited to) declines in value and reductions in liquidity. In addition, to the extent new sanctions are imposed or previously relaxed sanctions are reimposed (including with respect to countries undergoing transformation), complying with such restrictions may prevent the Fund from pursuing certain investments, cause delays or other impediments with respect to consummating such investments or divestments, require divestment or freezing of investments on unfavorable terms, render divestment of underperforming investments impracticable, negatively impact the Fund's ability to achieve their investment objectives, prevent the Fund from receiving payments otherwise due, increase diligence and other similar costs to the Fund, render valuation of affected investments challenging, or require the Fund to consummate an investment on terms that are less advantageous than would be the case absent such restrictions. Any of these outcomes could adversely affect the Fund's performance with respect to such investments, and thus the Fund's performance as a whole.

Additionally, climate change poses long-term threats to physical and biological systems. Potential hazards and risks related to climate change for a State or municipality include, among other things, wildfires, rising sea levels, more severe coastal flooding and erosion hazards, and more intense storms. Storms in recent years have demonstrated vulnerabilities in a State's or municipality's infrastructure to extreme weather events. Climate change risks, if they materialize, can adversely impact a State's or municipality's financial plan in current or future years. In addition, economists and others have expressed increasing concern about the potential effects of global climate change on property and security values. A rise in sea levels, an increase in powerful windstorms and/or a climate-driven increase in sea levels or flooding could cause coastal properties to lose value or become unmarketable altogether. Economists warn that, unlike previous declines in the real estate market, properties in affected coastal zones may not ever recover their value. Large wildfires driven by high winds and prolonged drought may devastate businesses and entire communities and may be very costly to any business found to be responsible for the fire. Regulatory changes and divestment movements tied to concerns about climate change could adversely affect the value of certain land and the viability of industries whose activities or products are seen as accelerating climate change. The Fund cannot predict the effects of or likelihood of such events on the U.S. and world economies. The Fund could be materially impacted by such events which may, in turn, negatively affect the value and performance of the Fund.

Advancements in technology may also adversely impact markets and the overall performance of the Fund. For instance, the economy may be significantly impacted by the advanced development and increased regulation of artificial intelligence. As the use of technology grows, liquidity and market movements may be affected. As artificial intelligence is used more widely, the profitability and growth of Fund holdings may be impacted, which could significantly impact the overall performance of the Fund.

Growth Stocks Risk

Growth stocks are typically priced higher than other stocks, in relation to earnings and other measures, because investors believe they have more growth potential. This potential may or may not be realized and, if it is not realized, may result in a loss to the Fund. Growth stock prices also tend to be more volatile than the overall market. Because different types of stocks go out of favor with investors depending on market and economic conditions, the Fund's return may be adversely affected during a market downturn and when growth stocks are out of favor.

Investment Companies and ETFs Risk

The Fund's investment performance may be affected by the investment performance of the underlying funds in which the Fund may invest. Investing in other investment companies, including ETFs, may result in duplication of expenses, including advisory fees, in addition to the Fund's own expenses. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments the investment company or ETF holds. The Fund may incur brokerage fees in connection with its purchase of ETF shares. Certain ETFs may be thinly traded and experience large spreads between the "ask" price quoted by a seller and the "bid" price offered by a buyer. The existence of extreme market volatility or potential lack of an active trading market for an ETF's shares could result in such shares trading at a significant premium or discount to their NAV.

Large-Cap Companies Risk

Large capitalization companies as a group could fall out of favor with the market, causing the Fund to underperform investments that focus solely on small- or medium- capitalization stocks.

Liquidity Risk

Liquidity risk is the risk, due to certain investments trading in lower volumes or to market and economic conditions that the Fund may be unable to find a buyer for its investments when it seeks to sell them or to receive the price it expects based on the Fund's valuation of the investments. Events that may lead to increased redemptions, such as market disruptions, may also negatively impact the liquidity of the Fund's investments when it needs to dispose of them. If the Fund is forced to sell its investments at an unfavorable time and/or under adverse conditions in order to meet redemption requests, such sales could negatively affect the Fund. Liquidity issues may also make it difficult to value the Fund's investments.

Market Risk

Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. The value of the Fund's investments may be negatively affected by adverse changes in overall economic or market conditions, such as the level of economic activity and productivity, unemployment and labor force participation rates, inflation or deflation (and expectations for inflation or deflation), interest rates, demand and supply for particular products or resources including labor, and debt levels and credit ratings, among other factors. Such adverse conditions may contribute to an overall economic contraction across entire economies or markets, which may negatively impact the profitability of issuers operating in those economies or markets. The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. The Fund's NAV may fluctuate significantly in response to these and other factors including economic, political, or financial events, public health crises (such as epidemics or pandemics), or other disruptive events (whether real, expected or perceived) in the U.S. and global markets. The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. As a result, an investor could lose money over short or long periods of time.

Real Estate Securities and REITs Risk

The Funds may invest in Real Estate Investment Trusts ("REITs"). Equity REITs invest directly in real property while mortgage REITs invest in mortgages on real property. REITs may be subject to certain risks associated with the direct ownership of real estate, including declines in the value of real estate, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, and variations in rental income. REITs pay dividends to their shareholders based upon available funds from operations. It is quite common for these dividends to exceed the REIT's taxable earnings and profits resulting in the excess portion of such dividends being designated as a return of capital. The Fund intends to include the gross dividends from such REITs in its distributions to its shareholders and, accordingly, a portion of the Fund's distributions may also be designated as a return of capital.

By investing in REITs indirectly through the Fund, a shareholder will bear not only his or her proportionate share of the expenses of the Fund, but also, indirectly, similar expenses of the REITs. Under current law, the Funds are eligible to pass through a 20% qualified business income deduction on ordinary REIT dividends that they receive. A Fund may be able to designate dividends to shareholders as eligible for the qualified business income deduction.

Sector Risk

To the extent the Fund invests more heavily in particular sectors, its performance will be especially sensitive to developments that significantly affect those sectors. Individual sectors may be more volatile, and may perform differently, than the broader market. The industries that constitute a sector may all react in the same way to economic, political or regulatory events.

- o *Banking Sector Risk (Emerald Banking & Finance Evolution Fund)*: The banking sector can be adversely affected by legislation, regulation, competition, declines in economic conditions, corporate and consumer debt defaults, changing interest rates, and instability in the financial markets in general. Credit losses resulting from financial difficulties of borrowers can have a significant negative impact. Changes in legislation in past years may have tended to increase competition in the industry. The stability and profitability of this sector depends significantly upon the availability and cost of capital funds.
- o *Financial Sector Risk (Emerald Banking & Finance Evolution Fund)*: The Fund may be susceptible to adverse economic or regulatory occurrences affecting the financial sector. Financial services companies are subject to extensive government regulation and, as a result, their profitability may be affected by new regulations or regulatory interpretations. Changes in interest rates can have a disproportionate effect on the financial sector and financial services companies whose securities the Fund may purchase may themselves have concentrated portfolios, which makes them vulnerable to economic conditions that affect that sector. Financial services companies have also been affected by increased competition, which could adversely affect the profitability or viability of such companies.

- o *Health Care Sector Risk (Emerald Growth Fund)*: Companies in the health care sector are subject to extensive government regulation and their profitability can be significantly affected by restrictions on government reimbursement for medical expenses, rising costs of medical products and services, pricing pressure (including price discounting), limited product lines and an increased emphasis on the delivery of healthcare through outpatient services. Companies in the health care sector are heavily dependent on obtaining and defending patents, which may be time consuming and costly, and the expiration of patents may also adversely affect the profitability of these companies. Health care companies are also subject to extensive litigation based on product liability and similar claims. In addition, their products can become obsolete due to industry innovation, changes in technologies or other market developments. Many new products in the health care sector require significant research and development and may be subject to regulatory approvals, all of which may be time consuming and costly with no guarantee that any product will come to market.
- o *Technology Companies Risk (Emerald Growth Fund)*. Technology companies and companies that rely heavily on technological advances may have limited product lines, markets, financial resources and personnel. These companies may face rapid product obsolescence, as well as unexpected risks and costs related to new product introduction and technological developments, such as artificial intelligence and machine learning. Technology companies may be adversely affected by disruptions to supply chains and distribution networks, as well as issues at third-party partners. They are heavily dependent on patent and other intellectual property rights, and the loss or impairment of these rights may adversely affect their profitability. Technology companies may face increased government scrutiny and may be subject to adverse governmental or legal action. These companies may also be adversely affected by, among other things, actual or perceived security vulnerabilities or other defects in their products and services, which may result in lawsuits, government enforcement actions and other remediation costs.
- o *Industrial Sector Risk (Emerald Growth Fund)*. Companies in the industrial sector may be adversely affected by changes in the supply and demand for products and services, product obsolescence or discontinuance, claims for environmental damage or product liability and changes in general economic conditions, among other factors.

Small-Cap and Medium Capitalization Stocks Risk

The Fund may invest in securities of companies with small- and mid-size capitalizations which tend to be riskier than securities of companies with large capitalizations. This is because small- and mid-cap companies typically have smaller product lines and less access to liquidity than large cap companies, and are therefore more sensitive to economic downturns. In addition, growth prospects of small- and mid-cap companies tend to be less certain than large cap companies, and the dividends paid on small- and mid-cap stocks are frequently negligible. Moreover, small- and mid-cap stocks have, on occasion, fluctuated in the opposite direction of large cap stocks or the general stock market. Consequently, securities of small- and mid-cap companies tend to be more volatile than those of large-cap companies. The market for small-cap securities may be thinly traded and as a result, greater fluctuations in the price of small-cap securities may occur.

Non-Principal Risks (Both Funds)

Investment Limitations

Except with respect to the illiquid investment restrictions set forth below and as otherwise required by the 1940 Act and the rules and regulations thereunder, all limitations on each Fund's investments listed in this Prospectus will apply at the time of investment. Each Fund would not violate these limitations unless an excess or deficiency occurs or exists immediately after and as a result of an investment. Unless otherwise indicated, references to assets in the percentage limitations on the Fund's investments refer to total assets.

Cash Position

Each Fund may not always stay fully invested. For example, when the portfolio managers believe that market conditions are unfavorable for profitable investing, or when the portfolio managers are otherwise unable to locate attractive investment opportunities, the Fund's cash or similar investments may increase. In other words, cash or similar investments generally are a residual - they represent the assets that remain after the Fund has committed available assets to desirable investment opportunities. When the Fund's investments in cash or similar investments increase, it may not participate in market advance or declines to the same extent that it would if the Fund remained more fully invested.

Changes of Investment Policies

Certain of the Funds' investment policies are non-fundamental investment policies, including the Emerald Banking & Finance Evolution Fund's policy to invest at least 80% of its assets in stocks (both common and preferred) of companies principally engaged in the banking or financial services industries and the Emerald Growth Fund's policy to invest at least 80% of its assets in stocks (both common and preferred) of U.S. and foreign companies identified by the Adviser as having growth characteristics. Such non-fundamental investment policies may be changed at any time without shareholder approval by the Board. Each Fund will provide at least sixty (60) days prior to any change to its 80% investment policy. Unless expressly stated otherwise in the Prospectus or the SAI, any other investment policies or restrictions contained in the Prospectus or SAI are non-fundamental.

Illiquid Securities

The Emerald Banking & Finance Evolution Fund may invest up to 15% of its net assets in illiquid securities (i.e., securities that do not have a readily available market or that are subject to resale restrictions). Generally, a security is considered illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the price at which a Fund has valued the investment.

Depository Receipts Risk

The Fund may purchase depository receipts, including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs"), Global Depositary Receipts ("GDRs"), and Non-Voting Depositary Receipt ("NVDRs") to facilitate its investments in foreign securities. By investing in ADRs rather than investing directly in the securities of foreign issuers, the Fund can avoid currency risks during the settlement period for purchase and sales.

However, ADRs do not eliminate all the risk inherent in investing in the securities of foreign issuers. The information available for ADRs, EDRs, GDRs, and NVDRs is subject to the accounting, auditing, and financial reporting standards of the market or exchange on which they are traded, and those standards may be more uniform and more exacting than those to which many foreign issuers may be subject.

Depository receipts may be issued in a sponsored program, in which an issuer has made arrangements to have its securities traded in the form of depository receipts, or in an unsponsored program, in which the issuer may not be directly involved. The holders of depository receipts that are unsponsored generally bear various costs associated with the facilities, while a larger portion of the costs associated with sponsored depository receipts are typically borne by the foreign issuers.

The depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited securities or to pass through the voting rights to facility holders with respect to the deposited securities. Available information concerning the issuers may not be as current for unsponsored depository receipts and the prices of unsponsored depository receipts may be more volatile than would be the case if the receipts were sponsored by the issuers.

Temporary Defensive Positions

Each Fund may depart from its principal investment strategies in response to adverse market, economic or political conditions by taking temporary defensive positions in short-term debt securities, cash and cash equivalents. Under such circumstances, the Fund may not achieve its investment objective.

DISCLOSURE OF PORTFOLIO HOLDINGS

A description of the Company's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI. The SAI is incorporated herein.

MORE INFORMATION ABOUT MANAGEMENT OF THE FUNDS

Investment Adviser

Emerald Mutual Fund Advisers Trust ("Emerald" or the "Adviser"), subject to the authority of the Funds' Board, is responsible for the overall management and administration of each Fund's business affairs. The Adviser commenced business operations in 2005 and is registered with the Securities and Exchange Commission (the "SEC") as an investment adviser. Emerald is located at 3175 Oregon Pike, Leola, Pennsylvania 17540. Emerald is a wholly owned subsidiary of Emerald Advisers, LLC, the former investment adviser to these Funds, and is located at the same address as that of Emerald. As of June 30, 2025, Emerald Advisers, LLC and its affiliates had approximately \$4.5 billion in assets under management.

Pursuant to the investment advisory and management agreement (the “Advisory Agreement”), the Emerald Banking & Finance Evolution Fund pays the Adviser an annual management fee of 0.90% based on the Emerald Banking & Finance Evolution Fund’s average daily net assets and the Emerald Growth Fund pays the adviser an annual management fee of 0.70% based on the Emerald Growth Fund’s average daily net assets. The management fee is paid on a monthly basis. The current term of the Advisory Agreement ends August 16, 2026. The Board may extend the Advisory Agreement for additional one-year terms. The Board, shareholders of the Fund, or the Adviser may terminate the Advisory Agreement upon sixty (60) days’ notice. A discussion regarding the basis for the Board’s approval of the Advisory Agreement with respect to each Fund will be provided in the Funds’ first annual or semi-annual report on Form N-CSR. The annual management fees are subject to the following breakpoints:

Emerald Banking & Finance Evolution Fund	0.90% up to and including \$100 million 0.80% in excess of \$100 million
Emerald Growth Fund	0.70% up to and including \$300 million 0.60% over \$300 million up to and including \$600 million 0.50% over \$600 million up to and including \$800 million 0.45% over \$800 million

Emerald has contractually agreed to waive a portion of its fees and reimburse other expenses in amounts necessary to limit the Fund’s operating expenses (exclusive of acquired fund fees and expenses, brokerage expenses, interest expense, taxes and extraordinary expense) for each of the Funds as follows: for the Emerald Banking & Finance Evolution Fund for Class A, Class C, Institutional Class, and Investor Class Shares to an annual rate (as percentage of the Fund’s average daily net assets) of 1.84%, 2.49%, 1.54%, and 1.89%, respectively; and for the Emerald Growth Fund for Class A, Class C, Institutional Class, and Investor Class Shares to an annual rate (as percentage of the Fund’s average daily net assets) of 1.29%, 1.94%, 0.99%, and 1.34%, respectively. This agreement (the “Expense Agreement”) shall continue at least through December 31, 2027. The Adviser will be permitted to recapture, on a class-by-class basis, expenses it has borne through the Expense Agreement to the extent that the Fund’s expenses in later periods fall below the annual rates set forth in the Expense Agreement; provided, however, that such recapture payments do not cause the Fund’s expense ratio (after recapture) to exceed the lesser of (i) the expense cap in effect at the time of the waiver and (ii) the expense cap in effect at the time of the recapture. Notwithstanding the foregoing, a Fund will not pay any such deferred fees and expenses more than three years after the date on which the fees and expenses were deferred. The Adviser may not discontinue this waiver, prior to December 31, 2027, without the approval by the Fund’s Board.

In addition, pursuant to a written agreement (the “AFFE Agreement”), the Adviser has agreed to waive and/or reimburse the Emerald Growth Fund’s Class A, Class C, Institutional Class, and Investor Class Shares for any acquired fund fees and expenses incurred by the Fund in connection with the Fund’s investment in any exchange-traded funds advised or sub-advised by the Adviser. The amount of such waived fees shall not be subject to recapture by the Adviser. The AFFE Agreement has no termination date. Prior to December 31, 2027, and thereafter, this waiver may not be modified or discontinued without the approval of the Fund’s board of directors.

Daily investment decisions are made by the portfolio managers, whose investment experience is described below under the heading “PORTFOLIO MANAGERS.”

Portfolio Managers

More information about each portfolio manager’s compensation, other accounts managed by each portfolio manager and each portfolio manager’s ownership of securities in the Funds is included in the SAI.

The portfolio managers are primarily responsible for the day-to-day operation of the Funds. To the extent there is more than one portfolio manager of a Fund, the portfolio managers are jointly and primarily responsible for the management of the applicable Fund. Each of the persons listed below serves as the Fund’s portfolio manager from the Fund’s inception.

FUND	PORTFOLIO MANAGERS	PAST 5 YEARS’ BUSINESS EXPERIENCE
Emerald Banking & Finance Evolution Fund	Kenneth G. Mertz II, CFA®*	Mr. Mertz has been the Chief Investment Officer & President of Emerald since 2005 and of Emerald Advisers, LLC since October 1992. Before joining Emerald, Mr. Mertz was the Chief Investment Officer to the Pennsylvania State Employees’ Retirement System.

FUND	PORTFOLIO MANAGERS	PAST 5 YEARS' BUSINESS EXPERIENCE
Emerald Banking & Finance Evolution Fund	Steven E. Russell, Esq.	Mr. Russell is a Portfolio Manager & Senior Research Analyst of Emerald Advisers, LLC. Prior to rejoining Emerald Advisers in 2005, Mr. Russell founded a registered investment adviser and served as Managing Director of a private equity firm. Mr. Russell served as a portfolio manager and officer of Emerald Advisers from 1998 to 2004. He has also served as a portfolio manager for the Pennsylvania Public School Employee's Retirement System.
Emerald Growth Fund	Kenneth G. Mertz II, CFA [®]	Mr. Mertz's biographical information appears above.
Emerald Growth Fund	Stacey L. Sears	Ms. Sears is Vice President of Emerald Advisers, LLC and of Emerald. Ms. Sears was employed by Emerald's parent company from 1992 to 2001, and from 1995 to 2000, served as a Research Analyst. She became an assistant portfolio manager to Mr. Mertz in 2001. In 2002, Ms. Sears became a portfolio manager.
Emerald Growth Fund	Joseph W. Garner	Mr. Garner is the Director of Research for Emerald Advisers, a position he has held since January 1995. Mr. Garner has been employed by Emerald Advisers, LLC since April 1994 as an analyst, focusing on small to mid-size firms. He holds an M.B.A.

Administrator, Distributor and Transfer Agent of the Funds

ADMINISTRATION AND ACCOUNTING AGREEMENT

U.S. Bank Global Fund Services ("Fund Services"), located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as fund administrator to the Funds pursuant to a fund administration servicing agreement and serves as fund accountant pursuant to a fund accounting servicing agreement (the "Administration Agreements"). Under the fund accounting servicing agreement, Fund Services has agreed to furnish to the Funds statistical and research data, clerical, accounting and bookkeeping services, and certain other services required by the Funds. Under the fund administration servicing agreement, Fund Services has agreed to provide fund administration services to the Company. These services include the preparation and coordination of the Company's annual post-effective amendment filing and supplements to the Funds' registration statement, the preparation and assembly of board meeting materials, and certain other services necessary to the Company's fund administration. In addition, Fund Services has agreed to prepare and file various reports with the appropriate regulatory agencies and prepare materials required by the SEC or any state securities commission having jurisdiction over the Funds.

The Administration Agreements provide that Fund Services shall be obligated to exercise reasonable care in the performance of its duties and that Fund Services shall not be liable for any error of judgment or mistake of law or any loss suffered by the Company in connection with its duties under the Administration Agreements, except a loss resulting from Fund Services' refusal or failure to comply with the terms of the applicable Administration Agreement or from its bad faith, negligence or willful misconduct in the performance of its duties thereunder. Fund Services receives a fee under the Administration Agreements based on the average daily net assets of the Company.

CUSTODIAN AGREEMENT

U.S. Bank, N.A., (the "Custodian"), 1555 North RiverCenter Drive, Milwaukee, Wisconsin 53212, Suite 302, is custodian of the Funds' assets pursuant to a custodian agreement (the "Custodian Agreement"). Under the Custodian Agreement, the Custodian: (a) maintains a separate account or accounts in the name of the Funds; (b) holds and transfers portfolio investments on account of the Funds; (c) accepts receipts and makes disbursements of money on behalf of the Funds; (d) collects and receives all income and other payments and distributions on account of the Funds' portfolio investments; and (e) makes periodic reports to the Board concerning the Funds' operations. The Custodian is authorized to select one or more banks or trust companies to serve as sub-custodian on behalf of the Funds, provided that the Custodian remains responsible for the performance of all of its duties under the Custodian Agreement and holds the Funds harmless from the acts and omissions of any affiliate, sub-custodian or domestic sub-custodian.

For its services to the Funds under the Custodian Agreement, the Custodian receives a fee based on the Funds' average gross assets calculated daily and payable monthly. Transaction charges and out-of-pocket expenses are also charged to the Funds. Fund Services and the Custodian are affiliates.

TRANSFER AGENCY AGREEMENT

Fund Services, also serves as the transfer and dividend disbursing agent for the Fund pursuant to a transfer agency and servicing agreement (the "Transfer Agency Agreement"), under which Fund Services: (a) issues and redeems shares of the Funds; (b) addresses and mails all communications by the Funds to record owners of the shares, including reports to shareholders, dividend and distribution notices and proxy materials for its meetings of shareholders; (c) maintains shareholder accounts and, if requested, subaccounts; and (d) makes periodic reports to the Board concerning the operations of the Funds. Fund Services may, subject to the Board's approval, assign its duties as transfer and dividend disbursing agent to any affiliate. For its services to the Funds under the Transfer Agency Agreement, Fund Services receives an annual fee based on the number of accounts in the Funds and the Funds' average gross assets calculated daily and payable monthly. Transaction charges and out-of-pocket expenses are also charged to the Funds.

Fund Services also provides services relating to the implementation of the Company's Anti-Money Laundering Program. In addition, Fund Services provides services relating to the implementation of the Funds' Customer Identification Program, including verification of required customer information and the maintenance of records with respect to such verification.

SHAREHOLDER INFORMATION

PRICING OF FUND SHARES

Each Fund currently offers Class A, Class C, Institutional Class, and Investor Class Shares. Each share class of a Fund represents an investment in the same portfolio of securities, but each share class has its own sales charge and expense structure, allowing you to choose the class that best meets your situation. When you purchase shares of a Fund, you must choose a share class. The NAV of each class of each Fund's shares is calculated as follows:

The Fund's NAV is calculated once daily at the close of regular trading hours on the New York Stock Exchange ("NYSE") (generally 4:00 p.m. Eastern time) on each day the NYSE is open. The NYSE is generally open Monday through Friday, except national holidays. The NYSE also may be closed on national days of mourning or due to natural disaster or other extraordinary events or emergency. Due to the fact that different expenses are charged to the Class A, Class C, Institutional Class, and Investor Class of the Fund, the NAV of the four classes of the Fund may vary. The Fund will effect purchases of Shares at the NAV, plus any applicable sales charge, next determined after receipt by the Transfer Agent of your purchase order in good order as described below. The Fund will effect redemptions of Shares at the NAV next calculated after receipt by the Transfer Agent of your redemption request in good order as described below. If the Fund holds securities that are primarily listed on non-U.S. exchanges, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

The Fund's equity securities listed on any national or foreign exchange market system will be valued at the last sale price, except for the National Association of Securities Dealers Automatic Quotation System ("NASDAQ"). Equity securities listed on the NASDAQ will be valued at the official closing price. Equity securities traded in the over-the-counter market are valued at their closing prices. If there were no transactions on that day, equity securities will be valued at the mean of the last bid and ask prices prior to the market close. Fixed income securities are valued using an independent pricing service, which considers such factors as security prices, yields, maturities and ratings, and are deemed representative of market values at the close of the market. When prices are not available from such service or are deemed to be unreliable, securities may be valued by dealers who make markets in such securities. Forward exchange contracts are valued by interpolating between spot and forward currency rates as quoted by an independent pricing service. Futures contracts are generally valued using the settlement price determined by the relevant exchange. Options for which the primary market is a national securities exchange are valued at the last sale price on the exchange on which they are traded, or, in the absence of any sale, will be valued at the mean of the last bid and ask prices prior to the market close. Options not traded on a national securities exchange are valued at the last quoted bid price for long option positions and the closing ask price for short option positions.

Investments in other open-end investment companies are valued based on the NAV of those investment companies (which may use fair value pricing as discussed in their prospectuses). Investments in ETFs, REITs and closed-end funds will be valued at their market price.

If market quotations are unavailable or deemed unreliable, securities will be valued by the Valuation Designee (as defined below) in accordance with procedures adopted by the Board and under the Board's ultimate supervision. The Board has adopted a pricing and valuation policy for use by the Fund and its Valuation Designee in calculating the Fund's NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Fund has designated the Adviser as its "Valuation Designee" to perform all of the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable. Relying on prices supplied by pricing services or dealers or using fair valuation involves the risk that the values used by the Fund to price its investments may be higher or lower than the values used by other investment companies and investors to price the same investments.

SALES CHARGES

Different brokerage firms, financial institutions, and industry professionals ("Service Organizations") may impose different sales charge waivers, and these variations are described in Appendix A to this Prospectus.

Class A Shares. Purchases of Class A Shares of each Fund are subject to a front-end sales charge of up to 4.75% of the total purchase price; however, sales charges may be reduced for large purchases as indicated below. For Class A Shares sold by Quasar Distributors, LLC (the "Distributor"), the Distributor will receive the sales charge imposed on purchases of Class A Shares (or any contingent deferred sales charge ("CDSC") paid on redemptions) and may retain the full amount of such sales charge. The sales charges or underwriter concessions (the difference between the sales charge and the dealer reallowance) received by the Distributor may be made available to the Fund for pre-approved marketing expenses or may be used to offset the compensation owed by the Adviser to the Distributor for its services. Sales charges are not imposed on Shares that are purchased with reinvested dividends or other distributions. The table below indicates the front-end sales charge as a percentage of both the offering price and the net amount invested. The term "offering price" includes the front-end sales charge. Because of rounding in the calculation of the "offering price", the actual sales charge you pay may be more or less than that calculated using the percentages shown below.

AMOUNT OF PURCHASE OF CLASS A SHARES	SALES CHARGE AS A % OF OFFERING PRICE	SALES CHARGE AS A % OF NAV	DEALER COMPENSATION AS A PERCENTAGE OF OFFERING PRICE
Less than \$50,000	4.75%	4.99%	4.25%
\$50,000 but less than \$249,999.99	3.75%	3.90%	3.25%
\$250,000 but less than \$499,999.99	2.75%	2.83%	2.50%
\$500,000 but less than \$999,999.99	2.00%	2.04%	1.75%
\$1 million or greater	0.00%	0.00%	Up to 1.00%

* No sales charge is payable at the time of purchase on investments of \$1,000,000 or more; however, a 1% CDSC is imposed in the event of redemption within 12 months following any such purchase. The Fund's Distributor will pay a commission at the rate of 1% to certain brokerage firms, financial institutions and other industry professionals, including affiliates of the Adviser who initiate and are responsible for purchases of \$1,000,000 or more. A CDSC may be waived or varied by certain Service Organizations as described in Appendix A to this Prospectus.

Class C Shares. There is no sales load on the purchase of Class C Shares. The offering price is the NAV per share. A contingent deferred sales charge or "CDSC" of 1.00% may apply to Class C Shares redeemed within the first 12 months. See Section titled "Contingent Deferred Sales Charge" below. The maximum purchase amount for Class C Shares is \$999,999.99. Purchases of \$1 million or more are invested in Class A Shares because Class A Shares' annual expenses are lower.

Institutional Class and Investor Class Shares. Institutional Class and Investor Class shares do not charge an initial sales load.

Rights of Accumulation. You may combine your new purchase of Class A Shares with Class A Shares and/or Class C Shares currently owned for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable sales charge for the new purchase is based on the total of your current purchase and the current NAV of all other shares you own. You may combine your account, your spouse's account, and the account(s) of your children under age 25.

This privilege is also extended to certain employee benefit plans and trust estates. The following purchases may be combined for purposes of determining the “Amount of Purchase”: (a) individual purchases, if made at the same time, by a single purchaser, the purchaser’s spouse and children under the age of 25 purchasing Class A Shares for their own accounts, including shares purchased by a qualified retirement plan(s) exclusively for the benefit of such individual(s) (such as an IRA, individual-type section 403(b) plan or single-participant Keogh-type plan) or by a “Company”, as defined in Section 2(a)(8) of the 1940 Act, solely controlled as defined in the 1940 Act, by such individual(s), or (b) individual purchases by trustees or other fiduciaries purchasing Class A Shares (i) for a single trust estate or a single fiduciary account, including an employee benefit plan, or (ii) concurrently by two or more employee benefit plans for a single employer or of employers affiliated with each other in accordance with Section 2(a)(3)(c) of the 1940 Act (excluding in either case an employee benefit plan described in (a) above), provided such trustees or other fiduciaries purchase shares in a single payment. Purchases made for nominee or street name accounts may not be combined with purchases made for such other accounts. You may also further discuss the combined purchase privilege with your investment broker, brokerage firm, financial institution, or other industry professional, including affiliates of the Adviser.

You will need to provide written instruction with respect to the other accounts whose purchases should be considered in Rights of Accumulation. Rights of Accumulation do not apply to Class A Shares of each Fund.

Letter of Intent. If you anticipate purchasing a specific dollar amount of Class A Shares within a 13-month period, the shares may be purchased at a reduced sales charge by completing and returning a Letter of Intent (the “Letter”), which can be provided to you by your investment broker or other Service Organization. The reduced sales charge may also be obtained on Class A Shares purchased within the 90 days prior to the date of receipt of the Letter. Shares purchased under the Letter are eligible for the same reduced sales charge that would have been available had all the shares been purchased at the same time. There is no obligation to purchase the full amount of shares indicated in the Letter. Should you invest more or less than indicated in the Letter during the 13-month period, the sales charge will be recalculated based on the actual amount purchased. Shares equal to 4.75% of the amount of the LOI will be held in escrow during the 13-month period. If you do not purchase the full amount of Class A Shares indicated in the Letter, the appropriate amount of shares held in escrow will be redeemed by the Transfer Agent to pay the sales charge that was not applied to your purchase.

Letters of Intent do not apply to Class A Shares of each Fund.

Aggregating Accounts. To take advantage of lower Class A Shares initial sales charges on large purchases or through the exercise of a Letter of Intent or right of accumulation, investments made by you, your spouse and your children under age 21 may be aggregated if made for your own account(s) and/or certain other accounts such as:

- trust accounts established by the above individuals (or the accounts of the primary beneficiary of the trust if the person who established the trust is deceased);
- solely controlled business accounts; and
- single participant retirement plans.

To receive a reduced sales charge under rights of accumulation or a Letter of Intent, you must notify your financial intermediary of any eligible accounts that you, your spouse and your children under age 21 have at the time of your purchase.

Class A Sales Charge Waivers. The sales charge on purchases of Class A Shares is waived for certain types of investors, including:

- Current and retired directors and officers of funds sponsored by the Adviser or any of its subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the Adviser.
- Employees of the Adviser and their families, or any full-time employee or registered representative of the Distributor or of broker-dealers having selling agreements with the Distributor (a “Selling Broker”) and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the Fund’s shares and their immediate families.
- Participants in certain “wrap-fee” or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the Distributor.

- Clients of financial intermediaries that have entered into arrangements with the Distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisors may charge a separate fee.
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker dealers that charge a transaction fee and that have entered into agreements with the Distributor.
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your Service Organization and if your Service Organization has entered into an agreement with the Company or the Distributor. Please consult your financial adviser for further information.

In order to take advantage of a sales charge waiver, a purchaser must certify to the Service Organization eligibility for a waiver and must notify the Service Organization whenever eligibility for a waiver ceases to exist. A Service Organization reserves the right to request additional information from a purchaser in order to verify that such purchaser is so eligible. Such information may include account statements or other records regarding Shares of the Fund held by you or your immediate family household members. Appendix A of this Prospectus provides more information about special sales charge arrangements through Service Organizations, and the circumstances in which sales charges may be reduced or waived for certain investors and certain types of purchases or redemptions.

Contingent Deferred Sales Charge on Certain Redemptions - Class A Shares. Purchases of \$1,000,000 or more in Class A Shares are not subject to an initial sales charge; however, a CDSC is payable on these investments in the event of a share redemption within 12 months following the share purchase, at the rate of 1.00% of the lesser of the value of the shares redeemed (exclusive of reinvested dividends and capital gain distributions) or the total cost of such shares. In determining whether a CDSC is payable, and the amount of the charge, it is assumed that shares purchased with reinvested dividends and capital gain distributions and then other shares held the longest are the first redeemed. A CDSC may be waived or reduced by certain Service Organizations as described in Appendix A to this Prospectus.

Contingent Deferred Sales Charge on Certain Redemptions - Class C Shares. No sales load is payable by a shareholder at the time of purchase, although the Distributor advances applicable Service Organizations the first year distribution and services fee at a rate of 1.00% on investments in the Fund's Class C Shares. This advancement is solely financed by the Adviser and not by investors or the Fund. As a result, the Fund imposes a CDSC of 1.00% on redemptions of investments made within 12 months of purchase. The financing party receives the CDSC from the Distributor as reimbursement for the up-front sales commission that has been financed. The CDSC is assessed on an amount equal to the lesser of the offering price at the time of purchase of the shares redeemed and the NAV of shares redeemed at the time of redemption. When Class C Shares are redeemed, the redemption order is processed so that the lowest deferred sales charge is charged, and Class C Shares that are not subject to the deferred sales charge are redeemed first. Any CDSC paid on the redemptions of Class C Shares expressed as a percentage of the applicable redemption amount may be higher or lower than the charge described due to rounding. No CDSC is imposed on increases in NAV for Fund shares acquired as reinvested Fund distributions. The maximum purchase amount for Class C Shares is \$999,999.99. Purchases of \$1 million or more are invested in Class A Shares because Class A Shares' annual expenses are lower.

The CDSC will be waived for Class C Shares in the following circumstances:

- Redemptions of shares purchased through certain employer-sponsored retirement plans and rollovers of current investments in the Fund through such plans;
- Exchanges pursuant to the exchange privilege, as described in "Shareholder Information - Exchange Privilege";
- Redemptions made in connection with minimum required distributions from IRA or 403(b)(7) accounts due to the shareholder reaching the required minimum distribution age;
- Certain post-retirement withdrawals from an IRA or other retirement plan if you are over 59 1/2 years old and you purchased your shares prior to October 2, 2006;
- Redemptions made with respect to certain retirement plans sponsored by the Funds;

- Redemptions resulting from shareholder death as long as the waiver request is made within one year of death or, if later, reasonably promptly following completion of probate (including in connection with the distribution of account assets to a beneficiary of the decedent);
- Withdrawals resulting from shareholder disability (as defined in the Code) as long as the disability arose subsequent to the purchase of the shares;
- Involuntary redemptions made of shares in accounts with low balances;
- Redemptions related to the payment of custodial IRA fees, if any; and
- Redemptions when a shareholder can demonstrate hardship, in the absolute discretion of the Fund.

PURCHASE OF FUND SHARES

Shares representing interests in the Funds are offered continuously for sale by the Distributor.

General. You may purchase Shares of the Funds at the NAV per Share, plus any applicable sales charge, next calculated after your order is received by the Transfer Agent in good order as described below. The Funds' NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. After an initial purchase is made, the Transfer Agent will set up an account for you on the Company records. The minimum initial investment in Class A Shares, Class C Shares, and Investor Class Shares is \$2,000 for non-qualified accounts and \$1,000 for qualified accounts. The minimum initial investment in Institutional Class shares is \$1,000,000 for all accounts. There is a minimum amount of \$100 for subsequent investment in Class A, Class C and Investor Class Shares. There is no minimum subsequent investment for Institutional Class shares. The Funds may accept initial investments of smaller amounts in its sole discretion. You can purchase Shares of the Funds only on days the NYSE is open and through the means described in this section.

Purchases Through Intermediaries. Shares of the Funds may also be available through certain Service Organizations. Certain features of the Shares, such as the initial and subsequent investment minimums and certain trading restrictions, may be modified or waived by Service Organizations. Service Organizations may impose minimum investment requirements. Service Organizations may also impose transaction or administrative charges or other direct fees, which charges and fees would not be imposed if Shares are purchased directly from the Company. Therefore, you should contact the Service Organization acting on your behalf concerning the fees (if any) charged in connection with a purchase or redemption of Shares and should read this Prospectus in light of the terms governing your accounts with the Service Organization. Service Organizations will be responsible for promptly transmitting client or customer purchase and redemption orders to the Company in accordance with their agreements with the Company or its agent and with clients or customers. Service Organizations or, if applicable, their designees that have entered into agreements with the Company or its agent may enter confirmed purchase orders on behalf of clients and customers, with payment to follow no later than the Company's pricing on the following business day. If payment is not received by such time, the Service Organization could be held liable for resulting fees or losses. The Company will be deemed to have received a purchase or redemption order when a Service Organization, or, if applicable, its authorized designee, accepts a purchase or redemption order in good order if the order is actually received by the Company in good order not later than the next business morning. If a purchase order is not received by the Funds in good order, the Transfer Agent will contact the financial intermediary to determine the status of the purchase order. Orders received by the Company in good order will be priced at the Funds' NAV, plus any applicable sales charges, next computed after such orders are deemed to have been received by the Service Organization or its authorized designee.

For administration, sub-accounting, transfer agency and/or other services, the Adviser or its affiliates may pay Service Organizations and certain recordkeeping organizations a fee (the "Service Fee") based on the average annual NAV of accounts with the Company maintained by such Service Organizations or recordkeepers. The Service Fee payable to any one Service Organization is determined based upon a number of factors, including the nature and quality of services provided, the operations processing requirements of the relationship and the standardized fee schedule of the Service Organization or recordkeeper.

In addition to fees that the Funds may pay to a Service Organization under a Plan of Distribution for the Class A Shares and the Class C Shares, the Funds may enter into agreements with Service Organizations pursuant to which the Funds will pay a Service Organization for networking, sub-transfer agency, sub-administration and/or sub-accounting services. These payments are generally based on either (1) a percentage of the average daily net assets of Fund shareholders serviced by the Service Organization or (2) a fixed dollar amount for each account serviced by the Service Organization. The aggregate amount of these payments may be substantial.

Purchases By Telephone. Investors may purchase additional Class A Shares, Class C Shares, Institutional Class Shares, and Investor Class Shares of each Fund by calling 1-855-828-9909. If you elected this option on your account application, and your account has been open for at least 7 business days, telephone orders, in amounts of \$100 or more for Class A Shares, Class C Shares, and Investor Class Shares, and \$1,000 or more for Institutional Class Shares, will be accepted via electronic funds transfer from your bank account through the Automated Clearing House (ACH) network. You must have banking information established on your account prior to making a purchase. If your order is received prior to 4:00 p.m. Eastern time, your shares will be purchased at the NAV, plus any applicable sales charge, calculated on the day your order is placed.

Telephone trades must be received by or prior to market close for same day pricing. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

Initial Investment By Mail. Class A Shares, Class C Shares, Investor Class Shares, and Institutional Class Shares of each Fund may be purchased by mail. Subject to acceptance by the Fund, an account may be opened by completing and signing an Account Application and mailing it to the Funds at the address noted below, together with a check payable to Emerald Funds. All checks must be in U.S. Dollars drawn on a domestic bank. The Funds will not accept payment in cash or money orders. The Funds do not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Funds will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of Shares.

Regular Mail:

Emerald Funds
c/o U.S. Bank Global Fund Services
PO Box 219252
Kansas City, MO 64121-9252

Overnight Mail:

Emerald Funds
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Transfer Agent will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Funds, for any payment that is returned. It is the policy of the Funds not to accept applications under certain circumstances or in amounts considered disadvantageous to shareholders. The Funds reserve the right to reject any application.

The Funds do not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the transfer agent of the Funds. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

Shares will be purchased at the NAV plus any applicable sales charge next computed after the time the application and funds are received in proper order and accepted by the Funds.

Initial Investment By Wire. Class A Shares, Class C Shares, Investor Class Shares and Institutional Class Shares of each Fund may also be purchased by wire. If you are making your first investment in a Fund, before you wire funds, the Transfer Agent must have a completed account application. You may mail or overnight deliver your account application to the Transfer Agent. Upon receipt of your completed account application, the Transfer Agent will establish an account for you. The account number assigned will be required as part of the instruction that should be provided to your bank to send the wire. Your bank must include both the name of the Fund you are purchasing, the account number, and your name so that monies can be correctly applied. Your bank should transmit funds by wire to:

Wire Instructions:

Wire Instructions:

U.S. Bank National Association 777 East Wisconsin Ave Milwaukee WI 53202
ABA #075000022

Credit:

U.S. Bancorp Fund Services Account #112-952-137

For Further Credit to:

(name of Fund to be purchased) (shareholder registration) (shareholder account number)

Wired funds must be received prior to 4:00 p.m. Eastern time to be eligible for same day pricing. The Funds and U.S. Bank, N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions. Before sending your wire, please contact the Transfer Agent to advise them of your intent to wire funds. This will ensure prompt and accurate credit upon receipt of your wire.

Additional Investments. Additional investments may be made at any time by purchasing Shares at the NAV per Share, plus any applicable sales charge of the Fund by mailing a check to the Transfer Agent at the address noted above under “Investment by Mail” or by wiring as outlined above under “Investment by Wire.” Initial and additional purchases made by check or electronic funds transfer through the ACH network cannot be redeemed until payment of the purchase has been collected. This may take up to 15 calendar days from the purchase date. There is a minimum amount of \$100 for subsequent investment in Class A, Class C and Investor Class Shares. There is no minimum subsequent investment for Institutional Class Shares.

Purchases in Kind. In certain circumstances, Shares of the Funds may be purchased “in kind” (i.e., in exchange for securities, rather than cash). The securities rendered in connection with an in-kind purchase must be liquid securities that are not restricted as to transfer and have a value that is readily ascertainable in accordance with the Company’s valuation procedures. Securities accepted by the Funds will be valued, as set forth in this Prospectus, as of the time of the next determination of NAV after such acceptance. The Shares of the Funds that are issued to the investor in exchange for the securities will be determined as of the same time. All dividend, subscription, or other rights that are reflected in the market price of accepted securities at the time of valuation become the property of the Funds and must be delivered to the Funds by the investor upon receipt from the issuer. The Funds will not accept securities in exchange for its Shares unless such securities are, at the time of the exchange, eligible to be held by the Funds and satisfy such other conditions as may be imposed by the Adviser or the Company. Purchases in-kind may result in the recognition of gain or loss for federal income tax purposes on the securities transferred to the Funds.

Other Purchase Information. The Company reserves the right, in its sole discretion, to suspend the offering of Shares or to reject purchase orders when, in the judgment of management, such suspension or rejection is in the best interests of the Funds. The Adviser will monitor the Funds’ total assets and may, subject to Board’s approval, decide to close the Funds at any time to new investments or to new accounts due to concerns that a significant increase in the size of the Fund may adversely affect the implementation of the Funds’ strategy. The Adviser, subject to the Board’s approval, may also choose to reopen the Funds to new investments at any time, and may subsequently close the Funds again should concerns regarding the Funds’ size recur. If the Funds close to new investments, the Funds may be offered only to certain existing shareholders of the Funds and certain other persons who may be subject to cumulative, maximum purchase amounts, as follows:

- a. persons who already hold Shares of the closed Funds directly or through accounts maintained by brokers by arrangement with the Adviser;
- b. existing and future clients of financial advisers and planners whose clients already hold Shares of the Funds;
- c. employees of the Adviser and their spouses, parents and children; and
- d. directors of the Company.

Distributions to all shareholders of the closed Funds will continue to be reinvested unless a shareholder elects otherwise. The Adviser, subject to the Board’s discretion, reserves the right to implement other purchase limitations at the time of closing, including limitations on current shareholders.

Purchases of the Funds’ Shares will be made in full and fractional Shares of the Funds calculated to three decimal places. Certificates for Shares will not be issued.

Shares may be purchased and subsequent investments may be made by principals and employees of the Adviser and their family members, either directly or through their IRAs, and by any pension and profit-sharing plan of the Adviser, without being subject to the minimum investment limitation. The Adviser is authorized to waive the minimum initial investment requirement.

Good Order. A purchase request is considered to be in good order when the purchase request includes the name of the Funds and share class, the dollar amount of shares to be purchased, your account application or investment stub, a check payable to the Funds, and any other information requested. Purchase requests not in good order may be rejected.

Customer Identification Program. In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your account application as part of the Company’s Anti-Money Laundering Program. As requested on the account application, you must supply your full name, date of birth, social security number and permanent street address. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Mailing addresses containing only a P.O. Box will not be accepted. Applications without the required information, or without any indication that a social security or taxpayer identification number has been applied for, may not be accepted. After acceptance, to the extent permitted by applicable law or its customer identification program, the Company reserves the right (a) to place limits on transactions in any account until the identity of the investor is verified; or (b) to refuse an investment in a Company portfolio or to involuntarily redeem an investor’s shares and close an account

in the event that an investor's identity is not verified. The Company and its agents will not be responsible for any loss in an investor's account resulting from the investor's delay in providing all required identifying information or from closing an account and redeeming an investor's Shares when an investor's identity cannot be verified.

It is important that the Funds maintain a correct address for each investor. An incorrect address may cause an investor's account statements and other mailings to be returned to the Funds. Based upon statutory requirements for returned mail, the Funds will attempt to locate the investor or rightful owner of the account. If the Funds are unable to locate the investor, then they will determine whether the investor's account can legally be considered abandoned. Mutual fund accounts may be transferred to the state government of an investor's state of residence if no activity occurs within the account during the "inactivity period" specified in the applicable state's abandoned property laws, which varies by state. The Funds are legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The investor's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 1-855-828-9909 at least annually to ensure your account remains in active status.

Investors who are residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the Fund to complete a Texas Designation of Representative form.

In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses and other similar documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders we reasonably believe are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-855-828-9909 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

REDEMPTION OF FUND SHARES

You may redeem Fund Shares at the next NAV calculated after a redemption request is received by the Transfer Agent in good order. The Funds' NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. You can redeem Shares of the Funds only on days the NYSE is open and through the means described in this section. You may redeem Fund Shares by mail, or, if you are authorized, by telephone. The value of Shares redeemed may be more or less than the purchase price, depending on the market value of the investment securities held by the Funds.

Redemption By Mail. Your redemption request should be sent to:

Regular Mail:

Emerald Funds

c/o U.S. Bank Global Fund Services
P.O. Box 219252
Kansas City, MO 64121-9252

Overnight Mail:

Emerald Funds

c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Funds do not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Funds. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

A signature guarantee, from either a Medallion program member or a non-Medallion program member (as described below), is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption is received by the Transfer Agent and the account address or bank details have changed within the last 15 calendar days;

- For all redemptions in excess of \$100,000 from any shareholder account.

The Funds may waive any of the above requirements in certain instances. In addition to the situations described above, the Funds and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

Signature guarantees will generally be accepted from non-Medallion program members who are domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"). A notary public is not an acceptable signature guarantor.

Redemption By Telephone. In order to utilize the telephone redemption option, you must indicate that option on your Account Application. You may then initiate a redemption of Shares in an amount not exceeding \$100,000 by calling the Transfer Agent at 1-855-828-9909.

Investors may have a check sent to the address of record, proceeds may be wired to a shareholder's bank account of record, or funds may be sent via electronic funds transfer through the Automated Clearing House (ACH) network, also to the bank account of record. Wires are subject to a \$15 fee paid by the investor, but the investor does not incur any charge when proceeds are sent via the ACH system.

Once a telephone transaction has been placed, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern time).

Telephone trades must be received by or prior to market close for same day pricing. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

Before executing an instruction received by telephone, the Transfer Agent will use reasonable procedures to confirm that the telephone instructions are genuine. The telephone call may be recorded and the caller may be asked to verify certain personal identification information. If a Fund or its agents follow these procedures, they cannot be held liable for any loss, expense or cost arising out of any telephone redemption request that is reasonably believed to be genuine. This includes fraudulent or unauthorized requests. If an account has more than one owner or authorized person, the Funds will accept telephone instructions from any one owner or authorized person.

IRA and Other Retirement Plan Redemptions. If you are redeeming shares held in an IRA and receiving a distribution from the IRA of the cash proceeds of the redemption of shares, you must indicate on your written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election to have tax withheld will be subject to 10% withholding.

Shares held in IRA accounts may be redeemed by telephone at 1-855-828-9909. Investors will be asked whether or not to withhold taxes from any distribution.

Involuntary Redemption. The Funds reserve the right to redeem a shareholder's account in the Funds at any time the value of the account falls below \$500 as a result of a redemption or an exchange request. Shareholders will be notified in writing that the value of their account in the Funds is less than \$500 and will be allowed 30 days to make additional investments before the redemption is processed. The Funds may assert the right to redeem your Shares at current NAV at any time and without prior notice if, and to the extent that, such redemption is necessary to reimburse the Funds for any loss sustained by reason of your failure to make full payment for Shares of the Funds you previously purchased or subscribed for.

Other Redemption Information. Redemption proceeds for Shares of the Funds recently purchased by check or electronic funds transfer through the ACH network may not be distributed until payment for the purchase has been collected, which may take up to fifteen calendar days from the purchase date. Shareholders can avoid this delay by utilizing the wire purchase option. Other than as described above, payment of the redemption proceeds will be made within seven days after receipt of an order for a redemption. The Company may suspend the right of redemption or postpone the date at times when the NYSE is closed or under any emergency circumstances as determined by the SEC. The Funds typically expect to meet redemption requests by paying out proceeds from cash or cash equivalent portfolio holdings, or by selling portfolio securities. In stressed market conditions, redemption methods may include redeeming in kind.

If the Board determines that it would be detrimental to the best interests of the remaining shareholders of the Funds to make payment wholly or partly in cash, redemption proceeds may be paid in whole or in part by an in-kind distribution of readily marketable securities held by the Funds instead of cash in conformity with applicable rules of the SEC and the Company's Policy and Procedures Related to the Processing of In-Kind Redemptions. Investors generally will incur brokerage charges on the sale of portfolio securities so received in the payment of redemptions. If a shareholder receives redemption proceeds in-kind, the shareholder will bear the market risk of the securities received until their disposition and should expect to incur transaction costs upon the disposition of the securities. The Company has elected, however, to be governed by Rule 18f-1 under the 1940 Act, so that the Funds are obligated to redeem their Shares solely in cash up to the lesser of \$250,000 or 1% of its NAV during any 90-day period for any one shareholder of the Funds.

Good Order. A redemption request is considered to be in good order when the redemption request includes the name of the Fund and share class, the number of shares or dollar amount to be redeemed, the account number, signatures by all of the shareholders whose names appear on the account registration with a signature guarantee, if applicable, and any other information requested. Redemption requests not in good order may be delayed.

MARKET TIMING

In accordance with the policy adopted by the Board, the Company discourages and does not accommodate market timing and other excessive trading practices. Purchases should be made with a view to longer-term investment only. Excessive short-term (market timing) trading practices may disrupt portfolio management strategies, increase brokerage and administrative costs, harm Fund performance and result in dilution in the value of Fund Shares held by long-term shareholders. The Company and the Adviser reserve the right to (i) reject a purchase or exchange order, (ii) delay payment of immediate cash redemption proceeds for up to seven calendar days, (iii) revoke a shareholder's privilege to purchase Fund Shares (including exchanges), or (iv) limit the amount of any exchange involving the purchase of Fund Shares. An investor may receive notice that their purchase order or exchange has been rejected after the day the order is placed or after acceptance by a financial intermediary. It is currently expected that a shareholder would receive notice that its purchase order or exchange has been rejected within 48 hours after such purchase order or exchange has been received by the Company in good order. The Company and the Adviser will not be liable for any loss resulting from rejected purchase orders. To minimize harm to the Company and its shareholders (or the Adviser), the Company (or the Adviser) will exercise its right if, in the Company's (or the Adviser's) judgment, an investor has a history of excessive trading or if an investor's trading, in the judgment of the Company (or the Adviser), has been or may be disruptive to the Funds. No waivers of the provisions of the policy established to detect and deter market timing and other excessive trading activity are permitted that would harm the Funds and its shareholders or would subordinate the interests of the Funds and their shareholders to those of the Adviser or any affiliated person or associated person of the Adviser.

Pursuant to the policy adopted by the Board, the Adviser has developed criteria that it uses to identify trading activity that may be excessive. The Adviser reviews on a regular, periodic basis available information related to the trading activity in the Funds in order to assess the likelihood that the Funds may be the target of excessive trading. As part of its excessive trading surveillance process, the Adviser, on a periodic basis, examines transactions that exceed certain monetary thresholds or numerical limits within a period of time. If, in its judgment, the Adviser detects excessive, short-term trading, it may reject or restrict a purchase request and may further seek to close an investor's account with the Funds. The Adviser may modify its surveillance procedures and criteria from time to time without prior notice regarding the detection of excessive trading or to address specific circumstances. The Adviser will apply the criteria in a manner that, in its judgment, will be uniform.

There is no assurance that the Funds will be able to identify market timers, particularly if they are investing through intermediaries.

If necessary, the Company may prohibit additional purchases of Shares by a financial intermediary or by certain customers of the financial intermediary. Financial intermediaries may also monitor their customers' trading activities in the Funds. The criteria used by intermediaries to monitor for excessive trading may differ from the criteria used by the Company. If a financial intermediary fails to enforce the Company's excessive trading policies, the Company may take certain actions, including terminating the relationship.

EXCHANGE PRIVILEGE

For Other Classes of the Funds. Beneficial holders with financial intermediary sponsored fee-based programs are eligible to exchange their Shares in a particular share class of the Funds for Shares in an identically registered account in a different share class of the Funds if the shareholder meets the eligibility requirements for that class of Shares or the shareholder is otherwise eligible to purchase that class of Shares. Such an exchange will be effected at the NAV of the Shares next calculated after the exchange request is received by the Transfer Agent in good order. Investors should contact their program provider to obtain information about their eligibility for the provider's program and the class of shares they would receive upon such a conversion.

Shares of each class of the Funds represent equal pro rata interests in the Funds and accrue dividends and calculate NAV and performance quotations in the same manner. The performance of each class is quoted separately due to different actual expenses. Total return can be expected to differ among classes of the Funds. Shareholders who exercise a class exchange privilege will generally not recognize a taxable gain or loss for federal income tax purposes.

For Another Fund Managed by the Adviser. If you have held all or part of your shares in a Fund for at least seven days, you may exchange all or a portion of your investment from that Fund to the same share class in an identically registered account of another mutual fund managed by the Adviser, so long as such Fund is available for sale in your state and meets your investment criteria. Any new account established through an exchange will be subject to the minimum investment requirements as described in that fund's prospectus. Exchanges will be executed on the basis of the relative NAV of the shares exchanged after your request for an exchange is received. An exchange of Fund shares for shares of another mutual fund is considered to be a sale of shares for federal income tax purposes, which may result in a taxable gain or loss. Please call the Funds (toll-free) at 1-855-828-9909 to learn more about exchanges, and to obtain the prospectus for another mutual fund managed by the Adviser. If you purchased shares of the Funds through your financial intermediary, please contact your financial intermediary to determine if you may take advantage of the exchange policies described in this section and for your financial intermediary's policies to effect an exchange.

Class A, Class C and Investor Class shareholders may also transfer their Class A, Class C or Investor Class Shares into Institutional Class Shares of the same Fund if you meet the eligibility requirements for the Institutional class into which you would like to transfer.

The Funds reserve the right, at its sole discretion, to change or discontinue the exchange privilege, or to temporarily suspend the privilege during unusual market conditions when, in the judgment of management, such change or discontinuance is in the best interests of the Funds.

DIVIDENDS AND DISTRIBUTIONS

The Funds will distribute substantially all of their net investment income and net realized capital gains, if any, to its shareholders. All distributions are reinvested in the form of additional full and fractional Shares of the Funds unless a shareholder elects otherwise. The Funds will declare and pay dividends from net investment income annually. Net realized capital gains (including net short-term capital gains), if any, will be distributed by the Funds at least annually.

The Funds may pay additional distributions and dividends at other times if necessary for the Funds to avoid U.S. federal tax. The Funds' distributions and dividends, whether received in cash or reinvested in additional Shares, are subject to U.S. federal income tax.

Distribution checks will only be issued for payments greater than \$25.00. All distributions under \$25.00 will automatically be reinvested in Fund Shares unless you elect to receive cash. If you elect to receive distributions and/or capital gains paid in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Funds reserve the right to reinvest the distribution check in your account, at the Funds' current NAV, and to reinvest all subsequent distributions. You may change the distribution option on your account at any time. You should notify the Transfer Agent in writing or by telephone at least five (5) days prior to the next distribution.

MORE INFORMATION ABOUT TAXES

The following is a summary of certain U.S. tax considerations relevant under current law, which may be subject to change in the future. Except where otherwise indicated, the discussion relates to investors who are individual U.S. citizens or residents. You should consult your tax adviser for further information regarding federal, state, local and/or foreign tax consequences relevant to your specific situation.

Distributions. The Funds contemplate distributing as dividends each year all or substantially all of its taxable income, including its net capital gain (the excess of net long-term capital gain over net short-term capital loss).

Except as otherwise discussed below, you will be subject to federal income tax on Fund distributions regardless of whether they are paid in cash or reinvested in additional Shares. Fund distributions attributable to short-term capital gains and net investment income, and all distributions attributable to income and gains of the SPC, will generally be taxable to you as ordinary income, except as discussed below.

Distributions attributable to the net capital gain, as defined above, of the Funds (which does not include any income or gains of the SPC) will be taxable to you as long-term capital gain, no matter how long you have owned your Fund Shares. The maximum federal long-term capital gain rate applicable to individuals, estates, and trusts is currently 23.8% (which includes a 3.8% Medicare tax). You will be notified annually of the tax status of distributions to you.

Distributions from the Funds will generally be taxable to you in the taxable year in which they are paid, with one exception. Distributions declared by the Funds in October, November or December and paid in January of the following year are taxed as though they were paid on December 31.

A portion of distributions paid by the Funds to shareholders that are corporations may also qualify for the dividends-received deduction for corporations, subject to certain holding period requirements and debt financing limitations. The amount of the dividends qualifying for this deduction may, however, be reduced as the result of the Funds' securities lending activities (if any), by a high portfolio turnover rate or by investments in debt securities or foreign corporations.

If you purchase Shares just before a distribution, the purchase price will reflect the amount of the upcoming distribution, but you will be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of capital. This adverse tax result is known as "buying into a dividend."

Sales of Shares. You will generally recognize taxable gain or loss for federal income tax purposes on a sale or redemption of your Shares based on the difference between your tax basis in the Shares and the amount you receive for them. Generally, you will recognize long-term capital gain or loss if you have held your Fund Shares for over twelve months at the time you dispose of them.

Any loss realized on Shares held for six months or less will be treated as a long-term capital loss to the extent of any capital gain dividends that were received on the Shares. Additionally, any loss realized on a disposition of Shares of the Funds may be disallowed under "wash sale" rules to the extent the Shares disposed of are replaced with other Shares of the Funds within a period of 61 days beginning 30 days before and ending 30 days after the Shares are disposed of, such as pursuant to a dividend reinvestment in Shares of the Funds. If disallowed, the loss will be reflected in an upward adjustment to the basis of the Shares acquired.

The Funds (or relevant broker or financial adviser) is required to compute and report to the IRS and furnish to Fund shareholders cost basis information when such Shares are sold. The Funds have elected to use the average cost method, unless you instruct the Funds to use a different IRS-accepted cost basis method or choose to specifically identify your Shares at the time of each sale. If your account is held by your broker or other financial adviser, they may select a different cost basis method. In these cases, please contact your broker or other financial adviser to obtain information with respect to the available methods and elections for your account. You should carefully review the cost basis information provided by the Funds and make any additional basis, holding period or other adjustments that are required when reporting these amounts on your federal and state income tax returns. Fund shareholders should consult with their tax advisers to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how the cost basis reporting requirements apply to them.

IRAs and Other Tax-Qualified Plans. The one major exception to the preceding tax principles is that distributions on, and sales and redemptions of, Shares held in an IRA (or other tax-qualified plan) will not be currently taxable unless such Shares were acquired with borrowed funds.

Backup Withholding. The Funds may be required in certain cases to withhold and remit to the IRS a percentage of taxable dividends or gross proceeds realized upon sale payable to shareholders who have failed to provide a correct tax identification number in the manner required, or who are subject to withholding by the IRS for failure to properly include on their return payments of taxable interest or dividends, or who have failed to certify to the Funds that they are not subject to backup withholding when required to do so or that they are "exempt recipients". The current backup withholding rate is 24%.

U.S. Tax Treatment of Foreign Shareholders. Generally, nonresident aliens, foreign corporations and other foreign investors are subject to a 30% withholding tax on dividends paid by a U.S. corporation, although the rate may be reduced for an investor that is a qualified resident of a foreign country with an applicable tax treaty with the United States. In the case of RICs such as the Funds, however, certain categories of dividends are exempt from the 30% withholding tax. These generally include dividends attributable to the Funds' net capital gains (the excess of net long-term capital gains over net short-term capital losses), dividends attributable to the Funds' interest income from U.S. obligors and dividends attributable to net short-term capital gains of the Funds.

Foreign shareholders will generally not be subject to U.S. tax on gains realized on the sale or redemption of Shares of the Funds, except that a nonresident alien individual who is present in the United States for 183 days or more in a calendar year will be taxable on such gains and on capital gain dividends from the Funds.

However, if a foreign investor conducts a trade or business in the United States and the investments in the Funds are effectively connected with that trade or business, then the foreign investor's income from the Funds will generally be subject to U.S. federal income tax at graduated rates in a manner similar to the income of a U.S. citizen or resident.

The Funds will also generally be required to withhold 30% tax on certain payments to foreign entities that do not provide a Form W-8BEN-E that evidences their compliance with, or exemption from, specified information reporting requirements under the Foreign Account Tax Compliance Act.

All foreign investors should consult their own tax advisers regarding the tax consequences in their country of residence of an investment in the Funds. Shares of the Funds have not been registered for sale outside of the United States and certain United States territories.

State and Local Taxes. You may also be subject to state and local taxes on income and gain from Fund Shares. State income taxes may not apply, however, to the portions of the Funds' distributions, if any, that are attributable to interest on U.S. government securities. You should consult your tax adviser regarding the tax status of distributions in your state and locality.

Taxation of the Special Purpose Company ("SPC"). There is, at present, no direct taxation in the Cayman Islands and interest, dividends and gains payable to the SPC will be received free of all Cayman Islands taxes. Each of the Cayman Subsidiary and SPC is registered as an "exempted company" pursuant to the Companies Law (Revised) of the Cayman Islands (as amended). Each of the Cayman Subsidiary and the SPC has applied for, and received, an undertaking from the Governor in Cabinet of the Cayman Islands to the effect that, for a period of twenty years from the date of the undertaking, no law that thereafter is enacted in the Cayman Islands imposing any tax or duty to be levied on profits, income or on gains or appreciation, or any tax in the nature of estate duty or inheritance tax, will apply to any property comprised in or any income arising under the Cayman Subsidiary or the SPC, or to the shareholders thereof, in respect of any such property or income.

More information about taxes is contained in the SAI.

SHAREHOLDER SERVICES PLAN FOR INSTITUTIONAL CLASS AND INVESTOR CLASS SHARES

Each Fund has adopted a non-Rule 12b-1 shareholder services plan with respect to the Funds' Class C Shares, Institutional Class Shares and Investor Class Shares (each a "Services Plan" and collectively the "Services Plans"). Under the Services Plans, a Fund is authorized to pay select financial intermediaries and/or Fund affiliates ("Participating Organizations"), for non-distribution related services provided to shareholders of each respective class.

Payments under the Services Plans are calculated daily and paid monthly, and the aggregate fees on an annual basis are not to exceed 0.25% for Class C Shares of the average daily net asset value of the Class C Shares of the Fund, 0.05% for Institutional Class Shares of the average daily net asset value of the Institutional Class Shares of a Fund and 0.15% for Investor Class Shares of the average daily net asset value of the Investor Class Shares of a Fund on assets held in the name of a Participating Organization. The foregoing fees are paid as compensation to the Participating Organization for providing some or all of the following on-going services: (i) establishing and maintaining Fund shareholder accounts, (ii) aggregating, processing and transmitting Fund shareholder orders and instructions regarding accounts, (iii) processing dividend and other distribution payments from each Fund on behalf of shareholders, (iv) preparing reports or forms on behalf of shareholders, (v) forwarding communications from each Fund to shareholders, and (vi) providing such other similar services as applicable statutes, rules or regulations permit. None of the aforementioned services includes distribution related services or activities. Any amount of such payment not paid during the Fund's fiscal year for such service activities shall be reimbursed to such Fund. Any amount of such payment not paid during a Fund's fiscal year for such service activities shall be reimbursed to such Fund as soon as practicable after the end of the fiscal year.

Because these services fees are paid out of assets attributable to each Fund's Institutional Class and Investor Class Shares on an ongoing basis, over time these fees will increase the cost of an investment in such shares and may cost more than other types of sales charges.

DISTRIBUTION ARRANGEMENTS

The Board has adopted a Plan of Distribution for the Class A Shares, Class C Shares and Investor Class Shares (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Funds' Distributor is entitled to receive from the Funds a distribution fee with respect to the Shares, which is accrued daily and paid monthly, of up to 0.35% on an annualized basis of the average daily net assets of the Class A Shares, up to 0.75% on an annualized basis of the average daily net assets of the Class C Shares, and up to 0.25% on an annualized basis of the average daily net assets of Investor Class Shares. The actual amount of such compensation under the Plan is approved by the Board and agreed upon by the Distributor. Because these fees are paid out of the Funds' assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Amounts paid to the Distributor under the Plan may be used by the Distributor to cover expenses that are related to (i) the sale of the Shares, (ii) ongoing servicing and/or maintenance of the accounts of shareholders, and (iii) sub-transfer agency services, sub-accounting services or administrative services related to the sale of the Shares, all as set forth in the Funds' 12b-1 Plan. Ongoing servicing and/or maintenance of the accounts of shareholders may include updating and mailing prospectuses and shareholder reports, responding to inquiries regarding shareholder accounts and acting as agent or intermediary between shareholders and the Funds or their service providers. The Distributor may delegate some or all of these functions to Service Organizations. See "Purchases Through Intermediaries" above.

The Plan obligates the Funds, during the period it is in effect, to accrue and pay to the Distributor on behalf of the Shares the fee agreed to under the Distribution Agreement. Payments under the Plan are not tied exclusively to expenses actually incurred by the Distributor, and the payments may exceed distribution expenses actually incurred.

ADDITIONAL INFORMATION

AUTOMATIC CONVERSION OF CLASS C SHARES TO CLASS A SHARES

Each Fund has adopted an automatic conversion feature for Class C Shares and the Predecessor Fund adopted an automatic conversion feature for Class C Shares effective May 1, 2019 (the "Effective Date"). Beginning on the Effective Date, each Class C Share of each Fund will automatically convert to Class A Shares of the same Fund with equivalent aggregate value, approximately eight (8) years after the date of purchase of such Class C Share ("Auto Conversion").

Certain Financial Intermediaries, including group retirement recordkeeping platforms, may not have been tracking such holding periods for Class C Shares and therefore may not be able to process such conversion for Class C Shares held. In these instances, each Class C Share held as of the Effective Date will automatically convert to Class A Shares with equivalent aggregate value approximately eight (8) years after the Effective Date. If you have any questions regarding your Financial Intermediary's ability to implement the Auto Conversion feature please contact an authorized agent of your Financial Intermediary for additional information.

FINANCIAL HIGHLIGHTS

The financial highlights tables below are intended to help you understand the Emerald Growth Fund's Predecessor Fund's financial performance for the past five years. The financial information presented for each applicable period is that of the Predecessor Fund. The Emerald Growth Fund is the accounting successor to its Predecessor Fund, and the Predecessor Fund is the accounting and performance survivor, as a result of the Reorganization of the Predecessor Fund into the Emerald Growth Fund. The Emerald Growth Fund has adopted the financial statements of its Predecessor Fund. Certain information reflects financial results for a single Predecessor Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Predecessor Fund (assuming reinvestment of all dividends and distributions). The information presented for the fiscal year ended April 30, 2025, has been audited by Cohen & Company, Ltd., the independent registered public accounting firm for each Predecessor Fund, whose report, along with the Predecessor Fund's financial statements, are included in the Annual Report for the fiscal year ended April 30, 2025, which is available upon request. Financial highlights are not yet available for the Emerald Finance & Banking Innovation Fund as it has not commenced operations prior to the date of this Prospectus.

APPENDIX A - INTERMEDIARY SALES CHARGE WAIVERS AND DISCOUNTS

THE INFORMATION ENCLOSED IN THIS APPENDIX IS PART OF, AND INCORPORATED IN, THE PROSPECTUS DATED JULY 18, 2025, as supplemented June 5, 2026. WAIVERS AND DISCOUNTS AVAILABLE FROM SERVICE ORGANIZATIONS

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a Service Organization. Service Organizations may have different policies and procedures regarding the availability of front-end sales charge waivers or contingent deferred (back-end) sales charge (“CDSC”) waivers, which are discussed below.

In all instances, it is the purchaser’s responsibility to notify the Fund or the purchaser’s Service Organization at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. Some waivers and discounts may not be made available through a particular Service Organization, and shareholders will have to purchase Shares directly from the Fund or through another Service Organization to receive these waivers or discounts.

MERRILL LYNCH

Purchases or sales of front-end (i.e. Class A) or level-load (i.e., Class C) mutual fund shares through a Merrill platform or account will be eligible only for the following sales load waivers (front-end, contingent deferred, or back-end waivers) and discounts, which differ from those disclosed elsewhere in this Fund’s prospectus. Purchasers will have to buy mutual fund shares directly from the mutual fund company or through another intermediary to be eligible for waivers or discounts not listed below.

It is the client’s responsibility to notify Merrill at the time of purchase or sale of any relationship or other facts that qualify the transaction for a waiver or discount. A Merrill representative may ask for reasonable documentation of such facts and Merrill may condition the granting of a waiver or discount on the timely receipt of such documentation.

Additional information on waivers and discounts is available in the Merrill Sales Load Waiver and Discounts Supplement (the “Merrill SLWD Supplement”) and in the Mutual Fund Investing at Merrill pamphlet at ml.com/funds. Clients are encouraged to review these documents and speak with their financial advisor to determine whether a transaction is eligible for a waiver or discount.

Front-end Load Waivers Available at Merrill
Shares of mutual funds available for purchase by employer-sponsored retirement, deferred compensation, and employee benefit plans (including health savings accounts) and trusts used to fund those plans provided the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
Shares purchased through a Merrill investment advisory program
Brokerage class shares exchanged from advisory class shares due to the holdings moving from a Merrill investment advisory program to a Merrill brokerage account
Shares purchased through the Merrill Edge Self-Directed platform
Shares purchased through the systematic reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same mutual fund in the same account
Shares exchanged from level-load shares to front-end load shares of the same mutual fund in accordance with the description in the Merrill SLWD Supplement
Shares purchased by eligible employees of Merrill or its affiliates and their family members who purchase shares in accounts within the employee’s Merrill Household (as defined in the Merrill SLWD Supplement)
Shares purchased by eligible persons associated with the fund as defined in this prospectus (e.g. the fund’s officers or trustees)
Shares purchased from the proceeds of a mutual fund redemption in front-end load shares provided (1) the repurchase is in a mutual fund within the same fund family; (2) the repurchase occurs within 90 calendar days from the redemption trade date, and (3) the redemption and purchase occur in the same account (known as Rights of Reinstatement). Automated transactions (i.e. systematic purchases and withdrawals) and purchases made after shares are automatically sold to pay Merrill’s account maintenance fees are not eligible for Rights of Reinstatement

Contingent Deferred Sales Charge (“CDSC”) Waivers on Front-end, Back-end, and Level Load Shares Available at Merrill
Shares sold due to the client’s death or disability (as defined by Internal Revenue Code Section 22e(3))
Shares sold pursuant to a systematic withdrawal program subject to Merrill’s maximum systematic withdrawal limits as described in the Merrill SLWD Supplement
Shares sold due to return of excess contributions from an IRA account
Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the investor reaching the qualified age based on applicable IRS regulation
Front-end or level-load shares held in commission-based, non-taxable retirement brokerage accounts (e.g. traditional, Roth, rollover, SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans) that are transferred to fee-based accounts or platforms and exchanged for a lower cost share class of the same mutual fund
Front-end Load Discounts Available at Merrill: Breakpoints, Rights of Accumulation & Letters of Intent
Breakpoint discounts, as described in this prospectus, where the sales load is at or below the maximum sales load that Merrill permits to be assessed to a front-end load purchase, as described in the Merrill SLWD Supplement
Rights of Accumulation (ROA), as described in the Merrill SLWD Supplement, which entitle clients to breakpoint discounts based on the aggregated holdings of mutual fund family assets held in accounts in their Merrill Household
Letters of Intent (LOI), which allow for breakpoint discounts on eligible new purchases based on anticipated future eligible purchases within a fund family at Merrill, in accounts within your Merrill Household, as further described in the Merrill SLWD Supplement

PRIVACY NOTICE

FACTS	WHAT DOES THE FUND DO WITH YOUR PERSONAL INFORMATION?
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: • Social Security number • account balances • account transactions • transaction history • wire transfer instructions • checking account information When you are <i>no longer</i> our customer, we continue to share your information as described in this notice.
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons the Fund chooses to share; and whether you can limit this sharing.

Reasons we can share your information	Does the Fund share?	Can you limit this sharing?
For our everyday business purpose - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes - to offer our products and services to you	Yes	No
For joint marketing with other financial companies	No	We don't share.
For affiliates' everyday business purposes - information about your transactions and experiences	Yes	No
For affiliates' everyday business purposes - information about your creditworthiness	No	We don't share
For our affiliates to market to you	No	We don't share
For nonaffiliates to market to you	No	We don't share

Questions?	Call 1-855-828-9909 or go to https://www.emeraldmutualfunds.com/
-------------------	--

What we do	
How does the Fund protect my personal information?	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
How does the Fund collect my personal information?	We collect your personal information, for example, when you • open an account • provide account information • give us your contact information • make a wire transfer • tell us where to send the money We also collect your information from others, such as credit bureaus, affiliates, or other companies.
Why can't I limit all sharing?	Federal law gives you the right to limit only • sharing for affiliates' everyday business purposes — information about your creditworthiness • affiliates from using your information to market to you • sharing for nonaffiliates to market to you State laws and individual companies may give you additional rights to limit sharing.

European Union’s General Data Protection Regulation	In addition to the above information, where applicable, you have the following rights under the European Union’s General Data Protection Regulation (“GDPR”) and U.S. Privacy Laws, as applicable and to the extent permitted by law, to • Check whether we hold personal information about you and to access such data (in accordance with our policy) • Request the correction of personal information about you that is inaccurate • Have a copy of the personal information we hold about you provided to you or another “controller” where technically feasible • Request the erasure of your personal information • Request the restriction of processing concerning you The legal grounds for processing of your personal information is for contractual necessity and compliance with law. If you wish to exercise any of your rights above, please call: 1-855-828-9909. You are required to ensure the personal information we hold about you is up-to-date and accurate and you must notify us of any changes to the personal data you provided to us. The Funds shall retain your personal data for as long as you are an investor in the Fund and thereafter as long as necessary to comply with applicable laws that require the Funds to retain your personal data, such as the Securities and Exchange Commission’s data retention rules. Your personal data will be transferred to the United States so that the Funds may provide the agreed upon services for you. No adequacy decision has been rendered by the European Commission as to the data protection of your personal data when transferring it to the United States. However, the Funds do take the security of your personal data seriously. You also have the right to lodge a complaint with the appropriate regulatory authority with respect to issues you may have.
Definitions	
Affiliates	Companies related by common ownership or control. They can be financial and nonfinancial companies.
Nonaffiliates	Companies not related by common ownership or control. They can be financial and nonfinancial companies. • <i>The Funds do not share with nonaffiliates so they can market to you.</i>
Joint marketing	A formal agreement between nonaffiliated financial companies that together market financial products or services to you. • <i>The Funds do not jointly market.</i>
Controller	“Controller” means the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of such processing are determined by European Union or European Member State law, the controller or the specific criteria for its nomination may be provided for by European Union or European Member State law.

FOR MORE INFORMATION ABOUT THE FUNDS

This Prospectus contains important information you should know before you invest. Read it carefully and keep it for future reference. Information about different sales charge variations is provided in Appendix A to this Prospectus. More information about the Funds is available free of charge, upon request, including:

Annual/Semi-annual Reports: These reports contain additional information about the Fund's investments, describe the Fund's performance, list portfolio holdings and discuss recent market conditions and economic trends. The annual report includes Fund strategies that significantly affected the Fund's performance during its last fiscal year. The Fund's annual and semi-annual reports to shareholders will be available on the Adviser's website at www.emeraldmutualfunds.com or by calling 1-855-828-9909.

Statement of Additional Information ("SAI"): The Funds' SAI, dated July 18, 2025, as supplemented June 5, 2026, has been filed with the SEC. The SAI, which includes additional information about the Funds, and the Funds' Annual and Semi-Annual reports, may be obtained free of charge by calling 1-855-828-9909. The SAI, as supplemented from time to time, is incorporated by reference into this Prospectus and is legally considered a part of this Prospectus. The SAI is available on the Adviser's website at www.emeraldmutualfunds.com.

Shareholder Inquiries: Representatives are available to discuss account balance information, mutual fund prospectuses, literature, programs and services available.

Hours: 9:00 a.m. to 8:00 p.m. (Eastern time) Monday-Friday. Call: 1-855-828-9909.

Purchases and Redemptions: Call your registered representative or 1-855-828-9909.
